In the meantime, work on the homologation of the downhill course in Jasna (SVK) requires further steps to be undertaken before the application can be considered.

5. The International Olympic Committee

The main activities of the IOC since the FIS Congress in Antalya included the organisation of the first Youth Olympic Games which took place in Singapore from 14th to 26th August.

In June, the IOC organised a seminar about gambling and the potential dangers for sport. During both the Olympic Games in Beijing 2008 and the Winter Games in Vancouver 2010, the IOC monitored betting patterns.

The IOC Executive Board (EB) met recently in Acapulco (MEX) and decided that it is looking favorably at the inclusion of ladies' Ski Jumping, Freestyle ski half-pipe, Freestyle ski slopestyle, Snowboard slopestyle, along with events from other Sports namely the Biathlon mixed team relay, Figure Skating team event and Luge team relay in the programme of the Sochi 2014 Olympic Winter Games.

However, before taking a final decision, the IOC EB said it would like to consider the outcome of the respective World Championships during the winter season in 2011.

FIS President Gian Franco Kasper stated that FIS is pleased to know that four of our event requests are seen favorably by the IOC Executive Board. At the same time, FIS is very disappointed that out of all proposed new events on the Olympic Winter Games program across all sports, the only one excluded from the positive list is the Alpine Team Event. It is difficult explain why the most established discipline that is best liked in terms of global TV audiences would not be considered further. This has already been expressed officially to the IOC with a request to study also the Alpine Team Event at the upcoming FIS Alpine World Ski Championships.

The IOC Olympic Programme Commission analysed all the requests put forward by the International Federations based and submitted its findings to the EB. The key positive factors included whether the changes would increase universality, gender equity and youth appeal, and in general add value to the Games. Other considerations included the cost of infrastructure, and the impact on the overall quota

and the number of events. Final decisions on the events to be included on the Sochi 2014 programme rest with IOC President Jacques Rogge and are planned to be taken in early spring 2011.

5.1 Youth Olympic Games 2012 in Innsbruck

The second meeting of the IOC Coordination Commission, chaired by FIS President Gian Franco Kasper took place in Innsbruck from 29th to 30th June 2010. A change of the venues was confirmed with the Snowboard and Freestyle Skiing events to be moved to Kuhtai from Seefeld, which will host the Nordic events.

President Gian Franco Kasper and Council Member Peter Schröcksnadel reported about the status to the facilities. Permission has been granted for an upgrade to the Alpine course in Patscherkofel to enable one finish area for all competitions, whilst a new Ski Jumping hill in Seefeld and a new Biathlon shooting range will be built. The Olympic Village will be located in a new property that was previously a military site with the education programme organised in the nearby Congress Centre. Discussions are underway about the location of the medal ceremonies with the proposal of the new Mayor of Innsbruck is to stage these in the centre of town in the same way as for the Olympic Winter Games in 1976.

The FIS Alpine World Cup in Kitzbühel takes place during the same period as the Youth Olympic Games and there will be a close collaboration including the traditional Kitzbühel media evening on Thursday, which will be a visit to the men's slalom at the Youth Olympic Games which is an evening competition under floodlight.

Details about the Qualification Systems and quotas have been sent to all National Ski Associations and the National Olympic Committees and can be viewed on the FIS Website www.fis-ski.com under Major Events, FIS at the Olympics, Rules, Youth Olympic Winter Games, IOC Qualification Criteria 2012.

Arrangements are being undertaken with the Innsbruck YOG 2012 Organising Committee to include the FIS World Snow Day as part of the Closing Ceremony on 22nd January 2012.

The third meeting of the IOC Coordination Commission is scheduled for 1st to 3rd December 2010.

5.2 Olympic Winter Games 2014 in Sochi

FIS President Gian Franco Kasper gave an update about Sochi 2014, following his attendance at the recent IOC Coordination Commission in October.

In early June 2010, the IOC organised the Debrief of the Vancouver 2010 Olympic Winter Games in Sochi, at which Secretary General Sarah Lewis represented the outdoor sports.

Preparations in Sochi were hampered these past months following the tragic death of the Alpine Manager Jan Erik Hedström who passed away as a result of a heart attack in August. A successor, Yves Dimier (FRA) could be nominated recently and he began his work on 1st November. An important appointment

has been made with Katrina Ammer as the Alpine Venue Manager following her experience at Vancouver 2010 as well as for many years in Vail-Beaver Creek.

During the upcoming winter the first test events are planned with two European Cup races scheduled and cooperation between the Sochi 2014 Organising Committee and the Russian Alpine Ski Association is progressing. There are many details to prepare notably with the education of the course workers and the medical rescue system. Special arrangements are being made for expedited visas to enter Russia.

The venue for Freestyle Skiing and Snowboard has been confirmed (the fourth one was presented in spring 2010), a master plan has been presented and approved by FIS, whereby the construction is only scheduled to start now.

After extensive discussions the Organising Committee has now confirmed that they are able to prepare a 2.5km cross-country course in the vicinity of the ski jumping hill to use for the Nordic Combined competitions. This is essential for the proper running of the competitions, since the cross-country tracks are located some distance away and already heavily used with a shared venue between Cross-Country Skiing and Biathlon.

5.3 Candidates for the Olympic Winter Games 2018

The three Candidates for the Olympic Winter Games 2018, Korea with Pyongchang, Germany with Munich, France with Annecy will undergo inspections by the IOC Evaluation Commission, chaired by Gunilla Lindberg from Sweden in February and March 2011. Thereafter the election of the host city will take place on 6th July 2011 in Durban (RSA).

6. AIOWF

The last General Assembly of the Association of International Olympic Winter Sports Federations (AIOWF) took place on 27th April 2010 in Dubai (UAE) in connection with SportAccord, followed the next day by the annual joint meeting between the Association of International Olympic Winter Sports Federations and the IOC Executive Board.

The next General Assembly will take place during the SportAccord Convention in London, in April 2011.

7. SportAccord (formerly GAISF)

The 44th GAISF General Assembly took place on Friday, 28th April 2010 as part of SportAccord, which included the General Assemblies of AIOWF, ASOIF (Association of Summer Olympic International Federations), ARIFS (Association of Recognised International Federations) and the IOC Executive Board.

SportAccord has just concluded the organisation of its first sports event, the Marshal Art Games that took place in August in Beijing (CHN) with 22 different combat sports on the programme. Future developments include Beach Games, Mind Games and Target Games.

SportAccord is building up a range of services to offer to the International Federations, notably the smaller IFs, which began with a Doping Free Unit with support from WADA and the IOC to assist with WADA Code compliance. The latest area under development is a Sports' Social Responsibility Department.

SportAccord 2011 will take place from 3rd to 8th April in London (GBR) with the 2012 edition in May 2012 in Quebec (CAN).

8. Financial Matters

8.1 Report of the Finance Commission

The Chairman of the Finance Commission and FIS Treasurer Sverre Seeberg reported on the financial matters of the International Ski Federation, including the accounts as per 30th June 2010.

The key items to note in the intermediary accounts include on the income side, the receipt of the payment from the IOC in relation to the Olympic Winter Games in Vancouver 2010 in May and June. The major expenditure has been the National Ski Association financial support and special distribution which were credited in September. FIS operating expenditure is in line with the budget, however, there is presently a significant loss on the valuation of the financial investments due to the currency situation with the Euro and US dollar but it is hoped that this valuation loss can be clawed back during the remainder of the financial period until the end of 2011.

8.2 Requests for financial support

The Council decided to provide financial support for a number of seminars and training courses for the Technical Committees' activities, however it rejected requests from the Grass Ski Committee to support a grass ski website.

In accordance with the decision of the Council to assist upgrade the level of the FIS Junior World Ski Championships with their investment for television coverage, the Council approved the application for support of the FIS Junior World Ski Championships 2011, Alpine Events in Crans-Montana (SUI).

Furthermore, the Council agreed to support the Ski Jumping Children's Grand Prix 2011 in Garmisch-Partenkirchen (GER).

8.2.1 FIS Solidarity

On proposal of the FIS Finance Commission, the Council decided to support a number of projects and requests for assistance that conform with the criteria for FIS Solidarity applications from the National Ski Associations of Belgium, Bulgaria, Chile, Croatia, Estonia, India, Mongolia and Slovakia.

In the case of projects requesting support for activities within a framework of the bring children to the snow campaign, it is necessary to specify actual projects.

The Council decided to table the proposal from the Slovenian Ski Association for support of the establishment of an international post-rehabilitation training

centre at the Sprims Sports Institute in Kranjska Gora and Planica until the centre is set-up to see how it could be of support internationally.

8.3 Marc Hodler Foundation

The Council confirmed the appointment of Vice-President Janez Kocijancic as the new President of the Marc Hodler Foundation, succeeding Fritz Wagnerberger.

The Council as the Patronage Committee of the Marc Hodler Foundation acknowledged the accounts per 30th June 2010.

9. Marketing, Public Relations and Special Projects

9.1 Sponsorship agreements

At its Meeting in Oberhofen, the Council acknowledged the present status of sponsorship and partner agreements which has not changed since the previous Council Meetings in Antalya, with the exception of the Presenting sponsor Cross-Country World Cup with "Viessmann" signing up to 2013/2014 :

FIS Alpine World Cup Data and timing service

All National Ski Associations will participate in the global timing and service agreement carried out by Swiss Timing for the FIS Alpine World Cup for the upcoming season. The Council expressed its thanks to the National Ski Associations of Austria and Croatia for their participation which serves the interests of the entire FIS Alpine World Cup and demonstrates their solidarity. As a further exception for 2010/11, the Council acknowledged that Kitzbühel would arrange its own services.

The Austrian Ski Association insists that in the event that no data sponsor can be secured by its' Meeting in June 2011, each National Ski Association would have to be freed to negotiate its own data services and the marketing of these rights.

The Council underlined that securing a data sponsor for the FIS Alpine World Cup needs to be addressed by FIS and FIS Marketing AG as a matter of the highest priority in order that a high quality global system can be provided for all FIS Alpine World Cup Organisers without charge and indeed with financial benefits for the Organising Committees.

9.2 "Bring Children to the Snow"

The Council reviewed the various activities in relation to the Bring Children to the Snow Campaign that are presently being undertaken and approved the concept of the FIS World Snow Day that will be carried out as from late January 2012. Discussions are taking place with the National Ski Associations, Organising Committees as well as partners including the ski industry, ski resorts, tourism organisations, international ski instructor's association as well as some government representatives:

Activating Snow Desire: International Communication Campaign

- Based on feedback on the first FIS SnowKidz Award presented in Antalya, refinement of the rules and criteria is underway. The award competition received much positive feedback and is serving as an effective catalyst for new activities by the NSAs for children and the youth.
- “Ski Sports in Schools” is the topic of the 8th FIS Youth & Children’s Seminar at the Autumn Meetings in Zurich this year. Campaign updates will be provided to various Committees during the week of meetings.
- The FIS SnowKidz Meeting Points, or “SnowKidz on Tour”, will be integrated to the extent possible in the FIS World Championships 2011. Several Meeting Points will also be staged at FIS World Cup events during the season to enable children to have a unique opportunity to meet the ski stars.
- The use of the SnowKidz promotional video was extended for another season. NSAs and World Cup organisers can request campaign give-aways and borrow other promotional materials for use during their events. The campaign flyer will be updated and printed during the autumn.
- A further idea for encouraging SnowKidz participation by the World Cup LOCs is to organise a video contest for children, the best of which can be shown on the video wall at the events. A season-long video contest platform will be provided for the FIS Cross-Country World Cup organisers through www.fiscrosscountry.com.
- The SnowKidz version of the ‘Ten FIS Rules for Conduct’ has been integrated in the Bring Children to the Snow campaign. A survey among children provided very positive feedback on the draft of the illustrated rules. The main idea was to illustrate the rules without text, but the survey showed that some guiding text is needed to ensure the correct message is conveyed. The final draft will be presented for review in Zurich during the Autumn Meetings. Distribution is planned as a poster format.

Enabling Snow Experience: National Activity Campaign

- Animation programmes for children at selected FIS World Cup and the World Championships 2011 are under development in close cooperation with the respective organizing committees.
- For the FIS World Snow Day, a few National Ski Associations/their organisers will be selected as showcase events for the first season of the annual snow festival. Numerous ideas that help bring more children and their families on the snow will be tested. The concept of the World Snow Day will be developed further based on feedback from the stakeholders.

9.3 FIS Marketing AG

The Council acknowledged the report of Christian Pirzer, CEO of FIS Marketing AG. The fourth meeting of the board of FIS Marketing AG will take place on 29th November 2010.

The main activity at present is the marketing of the FIS Cross-Country World Cup and negotiations with National Ski Associations and signed contracts with all involved countries for the upcoming season were finalised in the summer. The level of investment with a presenting sponsor Viessmann, main sponsors BMW and Vattenfall, and official clothing Craft is approximately 35% over budget. Two workshops were arranged with all FIS Cross-Country World Cup Organisers.

Other projects of the company include the marketing rights for the FIS Ski Flying World Championships 2012 in Vikersund (NOR) and marketing of the data partner for the FIS Alpine World Cup.

The Council appointed Sverre Seeberg in his capacity as Chairman of the Finance Commission and FIS Treasurer to the board of FIS Marketing AG to succeed Fritz Wagnerberger.

10. Anti-Doping

10.1 **International Doping Cases**

The Council acknowledged the report of the Chairman of the FIS Doping Panel Patrick Smith.

At its last Meeting in June 2010 in Antalya, the Council sanctioned the Russian Ski Association following the serious concern of the FIS regarding the situation of the Russian Ski Association with the high number of doping cases and lack of adherence the FIS Anti-Doping Rules.

The objectives of the sanctions were as follows:

1. Firstly, as a retrospective measure to reflect Council's strong disapproval to date;
2. Secondly, to prospectively encourage the Russian Ski Association to bring about the necessary, immediate and effective change within its organisation to enable it carry out its obligations a FIS partner in the important area of doping prevention and control;
3. To send a message to the Russian Ski Association, in particular, and to the world at large, that Council views anti-doping compliance seriously and will not hesitate to act appropriately where it is necessary to do so.

Furthermore, the Council had decided to suspend the passing of further sanctions subject to the Association providing to FIS, no later than 1st November, 2010, a report on its anti-doping work programme including details on the professional management of the anti-doping programme, a comprehensive financial budget and timetable for the training and education of all officials and athletes within the Russian Ski Association.

Prior to the Council Meeting in Oberhofen on 6th November, the Russian Ski Association submitted its detailed report about the various activities and actions it has undertaken in the meantime.

Support from the highest levels of the Russian governing authorities through important anti-doping measures in sports have paved the way for a significant number of changes have been made including changing team and other officials, an operational anti-doping administration, comprehensive testing programmes in and out of competition, as well as anti-doping education for both athletes and officials.

The Council acknowledged the positive steps that have been taken to address the many problems in a truly meaningful way, whilst underlining that this approach of the Russian Ski Association must signify a new beginning for on-going and permanent work in the fight against doping. Consequently the Council agreed that there is no need to impose any of the additional sanctions that were suspended. However FIS will closely monitor progress with the Russian Anti-Doping work whilst supporting the on-going work.

10.2 National Doping Cases

In accordance with the World Anti-Doping Code, FIS is not entitled to review and/or amend decisions of doping cases from tests that have been carried out by the National Anti-Doping Agencies, but both FIS and WADA may appeal any decisions to the Court of Arbitration for Sport (CAS) in the event that either organisations believe that an inappropriate decision has been taken (in accordance with the relevant rules and deadlines).

Name	Nat	Disc.	Event tested	Substance/ Method	Sanction
BRICKER, Bruno	SUI	CC	ICT Gommerlauf 28.02.2010	methylphenidate	1 year

10.3 WADA

On 17th to 18th September 2010 a WADA Think Tank Meeting took place, followed by a Meeting of the Executive Committee in Montreal (CAN) during which the WADA Prohibited List for 2011 was approved.

The autumn 2010 WADA Executive and Foundation Board Meeting will take place shortly after the FIS Council Meeting on 19th - 20th November.

10.4 Update to the FIS Anti-Doping Rules

The Council approved the following minor amendments to the FIS Anti-Doping Rules in order to ensure they are up to date with practices:

~~4.4.7 The Prohibited List identifies certain substances and methods that are not prohibited but for which an *Athlete* is required to file a declaration of Use (“DOU”). An *Athlete* should satisfy this requirement by declaring the Use on a *Doping Control Form* and when available by filing a declaration of Use through ADAMS.~~

~~4.4.8~~ 4.4.7 The TUE application form, ~~the DOU form~~, as well as the current requirements for use of the beta-2 agonists terbutaline and formoterol, can be found on the FIS website or obtained through the FIS Office by email antidoping@fisSKI.com.

Procedural Guidelines to the Anti-Doping Rules

FIS.B LONGITUDINAL HEMATOLOGICAL PROFILING (BLOOD TESTING)

FIS.B.4 Start Prohibition

FIS.B.4.2 Haemoglobin z-score and OFF z-score ≥ 3.09

An Athlete with a haemoglobin z-score $(Hb_{current} - Hb_{mean}) / \sqrt{(\sigma^2 (1+1/n))}$ or an OFF z-score of ≥ 3.09 is subject to a start prohibition of 14 days 5 days. A new blood sample is obtained after 14 days 5 days and if the haemoglobin z-score or OFF z-score is ≤ 3.09 the Athlete is permitted to start after the conclusion of the 5 day start prohibition.

If the z-scores of ≥ 2.33 or ≤ -2.33 the athlete is treated as suspicious and follow-up testing will take place accordingly.

FIS.B.4.3 OFF-score model ≥ 125.6 in males and ≥ 113.5 in females

The OFF score depicts a previous likely EPO use. OFF score = $Hb (g/l) - 60 * \sqrt{\text{retic} (\%)}$. An Athlete with an OFF-score exceeding the above mentioned values is subject to a start prohibition of 14 days 5 days. A new blood test is obtained after 14 days 5 days and if the OFF-score is ≤ 125.6 or ≤ 113.5 respectively, the Athlete is authorised start after the conclusion of the 14 days 5 day start prohibition.

FIS.B.4.4 Positive Bayesian model

The Bayesian approach is a model that has been developed by WADA to detect individual variations in blood profiles that are beyond the normal variation. If the blood values generate a positive Bayesian model, the Athlete will be issued with a start prohibition for 14 days 5 days.

13. FIS World Cup Calendars 2010/2011 to 2013/2014

On proposal of the respective Technical Committees, the Council confirmed the minor modifications submitted by the respective Technical Committees to the FIS World Cup calendars in 2010/11 (please see following pages for the respective calendars) and furthermore approved the calendars for the following seasons until 2013/2014.

In view of the open discussion about the FIS Alpine World Cup Finals in 2013/14 and the subsequent effect on the calendar draft 2014/15, the Alpine Committee and its Sub-Committee for the Alpine World Cup will present the draft calendars at the next meeting of the Sub-Committee during the Calendar Conference in Portoroz in spring 2011 and submit thereafter to the Council.

13.1 Proposal from the Italian Winter Sports Federation

The Council decided to forward a paper compiled by the Italian Winter Sports Federation with statistics about the number of races organised to the Alpine Committee and its Sub-Committee for the Alpine World Cup for consideration.

3.1.3 **World Cup Standing**

The WCJ-L points of all individual competitions of the current season will be counted for the WCJ-L overall winner.

If two or more competitors have the same number of points at the final evaluation, the order will be determined according to the highest number of individual victories respectively according to the successive ranks in FIS World Cup events.

If the competitors are still equal, the starting order will be drawn.

3.1.4 The current leader of the WCJ-L overall evaluation receives the "WSC Leader bib", which he is allowed to keep. The "WSC Leader bib" has to be worn by the leader at the WCJ-L-event, at the official winner's ceremony and at all official training.

3.2.3.1 In the second round, only the leading eight (8) nations from the first round are entitled to start. Before the start of the last group in the final

In case of an equality of points in the WCJ-L nations' evaluation, the better ranking order of the different competitions (individual as well as team competitions) will decide.

4. Competition Mode and Starting Order

4.1 WCJ-L-competitions

As a rule, a jumping competition consists of:

- the official training
- a qualification and/or
- a trial round
- two scored rounds.

4.1.1 For the official training, the qualification and the first scored competition round the competitors will be divided into three groups.

The number sequence of the groups is as follows:

- Group I of the organising country
- Group II (athletes without WCJ points)
- Group III (athletes with WCJ points).

4.1.2 The starting order within the group will be determined as follows:

- Group I: draw or seeding through the organising country
- Group II: draw
- Group III: reverse order of the actual WCJ standings.

For the first WCJ competition of the season, the final WCJ standings of the past season is decisive. As soon as athletes appear in the World Cup Standings, they are seeded in group III according to their ranking.

After the formation of the Seeded Group I and II, the Jury can make the draw before the official training. The team captains must confirm the draw at the next team captains' meeting.

In case of only one official training for two competitions carried out on the same hill (individual and team competitions or two individual competitions), only the single quota is allowed to start.

The competition schedule has to be published together with the invitation for the competition. Changes can be made by the Jury in case of „force majeure“.

4.2 Qualification round

4.2.1 Qualification Ski Jumping

The qualification round reduces the number of participants to 50. All jumpers, except the present top 10 in the current WCJ-L standings, must participate in the qualification round. The total score counts for the result.

A jumper, who has reached 95 % of the maximum length of the longest jump by the jumpers who have to qualify but has a fall, has the right to participate in the competition in addition to the 50.

- 4.2.2 In extreme cases (for example limited training jumps, change of the in-run, lack of time, difficult weather conditions) the Jury can decide on a qualification round or a trial round.
- 4.2.3 In the qualification round, the Jury is entitled to change the starting gate for the pre-qualified jumpers (present top 10 jumpers of the current WCJ-standings), in order to get the optimal in-run speed for the first competition round or to break off.
- 4.2.4 **Trial round**
If the qualification round is not held at all or not held on the competition day, a trial round must be carried out before the first scored round (exception see ICR art. 452.2.2)
- 4.2.5 For the first competitive round, only 50 jumpers (the present top 10 in the current WCJ-L standings and the top 40 of the qualification round) are admitted. In case of a tie at the last qualified place in the qualification round, the total number of participants will increase accordingly. The total number of participants will be filled up to 50, (plus tied jumpers at the last qualified place or/and jumpers who have reached 95 % of the maximum length but had a fall, according to art. 4.2.1)
- 4.2.6 For the second competitive round (final), only the top 30 of the first competition round are qualified (plus jumpers tied at the last qualified place). They start with the same start number but in reverse order of the collective points score from the first competitive round.
- 4.2.7 A jumper, who has reached 95 % of the maximum length of the longest jump by the jumpers who have to qualify but has a fall, has the right to participate in the competition in addition to the 30.
- 4.2.8 The final round must start 15 minutes after the end of the first competition round. The jumpers who are not at the start on time are disqualified.
- 4.2.9 After the qualification round of jumps is completed, the Jury is authorized to allow competitors who are not qualified to serve as fore jumpers for the competition, if necessary.
- 4.3 In order to guarantee that actual and appropriate information on the Jury's decisions regarding the competition is given to the media- and TV representatives as well as to spectators at the jumping hill, the Jury

has the duty to forward corresponding information to the media representatives and the announcer. The Race Director of the FIS is commissioned with this task.

4.4 For all WCJ-L competitions, the use of video-distance-measuring according to the special regulations established by the FIS Jumping Committee is mandatory.

The Committee for Nordic Combined

ICR - Introduce Team-Sprint as a new Team Competition format

544 Team-Sprint

544.1 Competition Realisation

The competition consists of team ski jumping and a 2 x 7.5 km cross country competition skied over short laps which have to be completed by both team members. A team consists of two competitors who must participate in and complete both disciplines (Ski-Jumping and Cross-Country).

544.2 Calculation

The calculation is based on the appropriate meter and point value according to the art. 527.2.3.2 and 527.4.1. For the final result list the ranking must be fixed, if necessary with technical help. In case of two or more athletes arriving at the finish line with the identical times a decision is made by the use of the photo finish video or by finish referee (art. 514.2.5). In case when no visual differences between competitors can be determined with the assistance of the technical equipment, the same rank will be given in the final result. For cup competitions, the same points will be awarded. The calculation of the jumping result is the average of both jumps these points for each team will be used for the calculation of the start time differences for the Cross-Country.

544.3 Special Regulation

The start order for the jump event is based on the actual Nation's Cup ranking. For WSC or JWSC it's only possible to start with one team per Nation, the start numbers will be distributed in the reverse order of the nation's ranking. For World Cup or COC the number of participating teams will be according to the specific event rules.

The 2 x 7.5 km Sprint is to be carried out using laps of 1500 m in length, where the competitors exchange off after each lap.

After both competitors have completed two laps, the elimination modus will start, whereby the team(s) in the last position is/are dropped. The number of teams eliminated per round is determined before the event, so there are a minimum of seven to ten teams remaining for the final lap. The Cup Nations points will be awarded based on the actual standing of the team when it was dropped from the competition. Only one team per Nation will get points.

The exchange area must be designed in such way, that all teams are assigned a preparation area (1.5 m width and 2.5 - 3 m in length). Each area is fenced with an opening to the exchange zone with all assigned areas situated within the prepared 30 to 40 m tag zone. The competitor who is not skiing must wait in this area. He can be coached and make preparations to his skis.

527.4.1 Cross-Country Calculation Table

The points or time differences between the competitors and to the winner of the Jumping competition or Cross-Country competition will be calculated for establishing the result difference between the competitors. This calculation based on the Nordic Combined table. The value of either time or points must be mathematically rounded depending on the competition format.

According to the length of the race course the following tables will be used. For the calculation a six decimal point place is used:

10 km course: 1 min.= 15 points

5 km course: 1 min.= 15 points

2 x 7.5 km course 1 min = 15 points

4 x 5 km course: 1 min = 45 points

Conversion tables by deviating distances are to be specified in sole responsibility of the National Ski Associations.

In regard to the proposal of the Committee for Nordic Combined concerning the Qualification Criteria for Sochi 2014, the Council pointed out that this question is dealt with by the IOC and their requests to increase the quotas to 65 (from 55), as well as the following details would be submitted for consideration:

- Nomination according to the World Cup and COC ranking (per Vancouver 2010)
- Including a national quota (per Vancouver 2010)
- Teams who take part in the Team competition automatically have an additional place as a reserve
- Basic quota for nations with World Cup or COC points

4.2 FIS Points

4.2.1 The average of the best two results

The average of a competitor's best two results in each discipline during the validity period will be used for the evaluation of the FIS points.

4.2.2 Only one result

For a competitor who has obtained only one result in any of the alpine events (Downhill, Slalom, Giant Slalom, Super G or Super Combined), during the validity period, a 22% (*) of his result will be added to his points.

4.2.3 No result

If no result is available in the calculation period, 22% will be added to the competitor's previous points (last FIS list).

4.2.4 Anti-Doping rule violation

An athlete subject to an anti-doping rule violation will have previously achieved FIS points deleted, according to article 10.1.2 FIS Anti-Doping Rules.

- 4.2.5 Validity period
The validity period of the results is 13 months.

4.4 Calculating penalties

- 4.4.1 Calculation of the penalties
The penalty calculation shall be based on the corresponding valid lists.

- 4.4.2 The best five competitors who started the race
The five competitors with the best FIS points who started the race, are selected (classified, disqualified, DNF and did not start 2nd run). The competitors with status "DNS1" will not be considered. If the points are above the maximum value, the maximum value will be used.

- 4.4.3 The best five classified competitors
The five competitors with the best FIS points who are ranked amongst the top ten of the race concerned will be selected.
If points are above the maximum value or missing, the maximum value will be used for the penalty calculation.

- 4.4.4 Less than five Competitors: maximum value
If there are less than five competitors with FIS points amongst the first ten of the result list, or there are not five competitors who started with FIS points, then those competitors without FIS points, i.e. the remaining competitors will receive the maximum value:

Downhill:	310 FIS points
Super G:	250 FIS points
Slalom:	145 FIS points
Giant Slalom:	200 FIS points
Super Combined:	250 FIS points

If less than three competitors with FIS points are ranked within the five, which are taken into consideration, the competition is not considered. At least three competitors must have FIS points (irrespective of the number of points) and at least five competitors have to be classified.

- 4.4.5 Two or more competitors are ranked 10th
In the event where two or more competitors are ranked 10th in the race, they shall all be taken into consideration for the penalty calculation, as long as they are included in the five with the best FIS points.

- 4.4.6 Two or more competitors have the fifth best FIS points
If two or more competitors have the fifth best FIS points, which should be taken into consideration for the penalty calculation, the competitor with the higher race points will be considered for the penalty calculation (reason: better penalty).

- 4.4.7 Calculation
The best five FIS points or the maximum value of the first ten classified competitors (= sum A), and the best five competitors who started in the FIS points ranking (= sum B) are added. Now the race points of the competitors with the best five FIS points are added (= sum C). The maximum value of the race points will be calculated if they are higher

than the maximum of the corresponding competition (DH 310, SL 145, GS 200, SG 250, SC 250).

Now the sum of the race points will be subtracted from the sum of the best five FIS points of the ten classified and the best five competitors who started.

The resulting figure shall then be divided by ten (sum A + sum B – sum C):10).

4.4.8 Rounding up and down the penalties

The points shall be rounded down from four thousandths of a point downwards and rounded up from five thousandths of a point upward (e.g. 13.654 = 13.65 or 21.849 = 21.85).

4.4.9 Super Combined

FIS points are awarded for speed events (DH or SG) in all FIS events except in World and Europa Cup were only if the competitor has completed both runs he/she achieves FIS points the FIS point penalty will be applied taking into consideration the technical data.

If the SL run takes place before the DH or SG, competitors who DNS, DNF or DSQ will start in DH or SG with this original bib after the last competitor who qualified in the SL run.

4.5 Category minimum/maximum-value

The category adder and minimum/maximum values will be published on each valid FIS points list (1st page).

4.5.1 Maximum penalty:

FIS World Ski Championships	0.00 points
World Cup	0.00 points
FIS Junior World Ski Championships	6.00 points
FIS Race	3.00 points
