Short Summary FIS Council Meeting 7th November 2011, Schladming (AUT)

Dear Mr. President,
Dear Ski friends,

In accordance with art. 32.2 of the FIS Statutes we take pleasure in sending you today the Short Summary of the most important decisions of the FIS Council Meeting, 7th November 2011 in Schladming (AUT).

1. Members present

All elected Council Members were present at the meeting in Schladming, Austria on 7th November 2011:

President Gian Franco Kasper, Vice-Presidents Yoshiro Ito, Janez Kocijancic, Bill Marolt and Sverre Seeberg, Members Mats Årjes, Dean Gosper, Alfons Hörmann, Roman Kumpost, Sung-Won Lee, Vedran Pavlek, Eduardo Roldan, Peter Schroecksnadel, Patrick Smith, Matti Sundberg, Michel Vion, Manuela Di Centa replacing Giovanni Morzenti (without vote) and Secretary General Sarah Lewis.

2. Minutes from the Council Meeting in Ljubljana (SLO)

The minutes from the Council Meeting in Ljubljana (SLO) on 6th June 2011 and the Extraordinary Meeting in Zurich (SUI) on 21st August 2011 were approved.

2.1 Extraordinary Meeting of the FIS Council in Zurich (SUI)

The Council convened for an Extraordinary Meeting in Zurich on 21st August 2011 in order to address the matter of Timing and Data for the FIS Alpine World Cup and also discussed the Specifications for Alpine Competition Equipment, namely the new rules for alpine skis.

3. The FIS World Championships

3.1 **Reports FIS World Championships**

The Council Members from the respective nations reported on the following upcoming events and provided written reports from the Organising Committees:

- FIS Skiflying World Championships 2012, Vikersund (NOR), 17th to 19th February: Vice-President Sverre Seeberg
- FIS Alpine World Ski Championships 2013, Schladming (AUT), 4th to 17th February: Council Member Peter Schroecksnadel
- FIS Nordic World Ski Championships 2013, Val di Fiemme (ITA), 19/20th February to 3rd March: Manuela di Centa
- FIS Freestyle World Championships 2013, Voss (NOR), 3rd to 10th March: Vice-President Sverre Seeberg
- FIS Snowboard World Championships 2013, Stoneham (CAN), 18th to 27th January: Council Member Patrick Smith
- FIS Skiflying World Championships 2014, Harrachov (CZE), 13th to 16th March: Council Member Roman Kumpost
- FIS Nordic World Ski Championships 2015, Falun (SWE), 18th February to 1st March: Council Member Mats Årjes
- FIS Alpine World Ski Championships 2015, Vail/Beaver Creek (USA), 3rd to 15th February: Vice-President Bill Marolt
- FIS Freestyle and Snowboard World Championships 2015, Kreischberg/Murau (AUT), 16th to 25th January: Council Member Peter Schroecksnadel

The Council acknowledged the progress reports from the respective Council Members and Organising Committees and that all the various preparations appear to be going according to schedule.

In addition the Council appointed Vars (FRA) as organiser of the 2013 FIS Speed Skiing World Championships.

Furthermore, the Council approved the following competition programmes for the different FIS World Championships in 2013:

**Programme FIS Alpine World Ski Championships

Sunday, 17 th February*	Slalom 1 st run Slalom 2 nd run	

The Organising Committee of Schladming 2013 has requested consideration that the Men's Slalom is carried out as a night race on Thursday 14th February and this would therefore affect the programme of the technical races including the qualification races. The Council agreed that the preference would be to organise the night slalom as is traditional in Schladming and potentially consider this option for the Men's and/or Ladies' Super Combined Slaloms, however under the condition that the EBU and main broadcasters will transmit the races live.

In regard to the qualification races, the Council requested confirmation from the Organising Committee about whether the location of these will be in Reiteralrm or Haus im Ennstal in order to assist the National Ski Associations' athletes participating make their arrangements.

Furthermore, the Council underlined that the qualification races are an integral part of the Men's Giant Slalom and Slalom Championship races and that the host broadcaster is required to produce highlights for television.

The competition programme for the 2013 FIS Freestyle Skiing World Championships in Voss (NOR) could not yet be finalised due to the discussions about the location for the Halfpipe since Voss does not have a Halfpipe and would need to construct it using snow. Therefore on proposal of the Organising Committee and supported by the Freestyle Skiing Committee, the Council agreed that as an exception the Halfpipe competition may be carried out in Oslo where a new facility has just been constructed according to the latest specifications.

3.2 Candidates for future FIS World Championships

The Council confirmed the following applications for future FIS World Championships, all of which were submitted according to the regulations. The Council has a right to veto whether or not to accept an application by 31st October, respectively the Council Meeting thereafter. Furthermore, the Council decided that the presentations to the FIS Council during the FIS Congress week in Kangwonland (KOR) 2012 will take place on Tuesday 29th May, with the election by the Council taking place on Thursday 31st May.

4. The FIS Junior World Championships

4.1 Future Championships

The Council Members from the respective National Ski Associations reported on the following upcoming events:

- FIS Alpine Junior World Ski Championships 2012, Roccaraso (ITA), 29th February to 9th March: Manuela di Centa
- FIS Nordic Junior World Ski Championships 2012, Erzurum (TUR), 19th to 26th February: Secretary General Sarah Lewis on behalf of the Turkish Ski Association
- FIS Snowboard Junior World Championships 2012 in Sierra Nevada (SPA), 22nd March to 1st April: Council Member Eduardo Roldan
- FIS Nordic Junior World Ski Championships 2013 in Liberec (CZE): Council Member Roman Kumpost
- FIS Alpine Junior World Ski Championships 2013 in Le Massif, Quebec (CAN): Council Member Patrick Smith
- FIS Nordic Junior World Ski Championships 2014 in Val di Fiemme (ITA): Manuela di Centa

The Council acknowledged the progress reports on behalf of the various Organising Committees and confirmed that it will be represented at the respective Championships by the Council Member from the host nation where possible.

Furthermore, the Council appointed Jasna (SVK) as Organiser of the FIS Alpine Junior World Ski Championships 2014.

5. The International Olympic Committee

The 123rd IOC Session took place in Durban (RSA) from 4th to 7th July 2011 and the main item on the agenda was the election of the Organiser of the Olympic Winter Games 2018.

On 6th July 2011, after one round of voting, the winner was declared as PyeongChang. The results of the voting were as follows:

PyeongChang	63 votes
Munich	25 votes
Annecy	7 votes

Since the previous FIS Council Meeting, the IOC has had several meetings and undertaken various activities:

- In June 2011 the IOC awarded to NBC Universal (NBCU) the broadcast rights in the USA for the XXII Olympic Winter Games 2014 in Sochi and the Games of the XXXI Olympiad 2016 in Rio de Janeiro, as well as the Olympic Games 2018 in PyeongChang and 2020, whose host city is yet to be decided. The total agreement is valued at USD 4.38 billion.
- Following the fifth visit of the IOC Coordination Commission in September 2011, representatives of the United National Environment Programme (UNEP) and ecological organisations in Sochi met for a series of meetings. The main objective of these meetings was to discuss the challenges for the region's ecosystem that are emerging during the preparations of the 2014 Olympic Winter Games.
- The IOC President also had a meeting with the Executive Director of the United Nations Office on Drugs and Crime (UNODC). The two organisations signed a Memorandum of Understanding, whereby each of them will seek to identify possible areas of work particularly related to drug abuse as well as corruption in sport and crime among young people.
- The Entourage Commission headed by Sergey Bubka met for the second time at the IOC Headquarters and the Olympic Programme and Marketing Commissions held meetings under the chairmanship of IOC Members Franco Carraro and Gerhard Heiberg respectively. Furthermore the Olympic Philately, Numismatic and Memorabilia Commission, whose Chairman is IOC Executive Member Gerhard Heiberg held a meeting as well as the Audit Committee and Finance Commission, while the Women & Sport Commission and the IOC Olympic Capital Commission also gathered.
- In mid-September the IOC organised the World Conference on Sport for All in Beijing (CHN) and Secretary General Sarah Lewis had been asked to present a case study during the first plenary session about the Bring Children to the Snow campaign and the World Snow Day.
- The Candidates for the Olympic Games 2020 have now been submitted with Baku (AZE), Doha (QAT), Istanbul (TUR), Madrid (SPA), Rome (ITA) and Tokyo (JPN). The election of the City will take place in September 2013 at the IOC Session in Buenos Aires (ARG) at the same time as the election of the new IOC President.

In concluding the discussions about the International Olympic Committee, the Council expressed its opinion that the position of the Winter Sports and the FIS within the international sports movement is not adequately recognised by the IOC and efforts will be undertaken to strengthen the position of FIS.

5.1 Youth Olympic Games 2012 in Innsbruck

The fourth meeting of the IOC Coordination Commission, chaired by FIS President Gian Franco Kasper took place in Innsbruck from 4th to 6th September 2011. Additionally the Chef de Mission Seminar took place just before from 1st to 3rd September at which he was also present.

All Winter Youth Olympic Games Ambassadors for Innsbruck 2012 have been confirmed with Freestyle Skier Kevin Rolland (FRA) recently confirmed, joining Benni Raich (AUT), Lindsey Vonn (USA) as well as Figure Skater Yuna Kim (KOR) and a famous Ice Hockey player to be announced shortly.

Winter Youth Olympic Games 2016

In November 2011, the International Olympic Committee will elect the organiser of the 2nd Winter Youth Olympic Games in 2016. The only candidate is Norway with the City of Lillehammer, which successfully hosted the XVII Olympic Winter Games in 1994.

The next Summer Youth Olympic Games will take place in Nanjiing (CHN) in 2016.

5.2 Olympic Winter Games 2014 in Sochi

The 6th meeting of the IOC Coordination Commission took place in Sochi from 14th to 16th September 2011.

The Olympic test phase will start in earnest during the upcoming winter with both Men's and Ladies FIS Alpine World Cup Downhill and Super Combined competitions taking place on consecutive weeks in February 2012.

Events on the Programme of the Olympic Winter Games 2014

At meetings of the IOC Executive Board in April and July 2011, it confirmed the programme of new events for the Sochi 2014 Games with Ladies Ski Jumping, Freestyle Skiing Halfpipe, Slopestyle, Snowboard Slopestyle and Snowboard Parallel Slalom all included. The Alpine Team Parallel competition was regrettably not included. Additionally the other sports added to the programme are Biathlon Mixed Relay, Figure Skating Team Event and Luge Team Relay.

The proposal to include the Snowboard Parallel Slalom was made directly by the Russian NOC and the Government to the IOC. It was not one of the events proposed by the FIS Congress. At its Meeting in Schladming, the Council expressed its concern that the IOC had accepted a proposal for the potential inclusion of a new event directly from the host NOC respectively the government and trust that such a process will not occur again in the future.

Thereafter, at its meeting in Daegu (KOR) at the end of August, the IOC Executive Board approved the Qualification Systems for the Olympic Winter

Games in Sochi 2014. A final review is being carried out by the IOC notably in consideration of the limited accommodation in the mountain Olympic Village and the document should be available by mid-December.

Provisional Qualifying Timeline for all disciplines

Qualification Period:	July 2012 - 19 January 2014
Publication of the Olympic Quota Allocation List and Olympic Qualification FIS Points list:	Monday 20 January 2014
FIS allocation of quota places to NOCs:	Monday 20 January 2014

End of re-allocation process:	Friday 24 January 2014
Sochi 2014 deadline to receive entry forms submitted by the NOCs:	Monday 27 January 2014

5.3 PyeongChang 2018

The first report from PyeongChang 2018 was submitted following its election in July 2011. Council Member Sung-Won Lee reported that Olympic Games Organising Committee has been officially inaugurated and former Governor Kim of Gangwon Province has been appointed President and CEO of the Organising Committee. The first IOC Coordination Commission will take place in March 2012 and FIS President Gian Franco Kasper has been appointed a member. The next major milestone is the confirmation by National Assembly of the official legislation in regard to the Games.

6. AIOWF

Since the last General Assembly of the Association of International Olympic Winter Sports Federations (AIOWF) in April 2011, a further gathering took place during the IOC Session on 5th July in Durban (RSA).

The customary informal pre-winter meeting of the Winter Sports Federations in the autumn will take place during the International Federation Forum in Lausanne on 14th November 2011 which will also include a briefing by the IOC on the Youth Olympic Games.

7. SportAccord (formerly GAISF)

The SportAccord IF Forum will take place in Lausanne from 14th to 16th November 2011 during which a Meeting of the SportAccord Council will take place. This year's event is focused on "Sport and the City" and "Building an Effective Federation".

The 46th GAISF General Assembly will take place on 20th to 25th May 2012 in Quebec (CAN) as part of SportAccord, which includes the General Assemblies of AIOWF, ASOIF (Association of Summer Olympic International Federations), ARIFS

(Association of Recognised International Federations) and the IOC Executive Board. The theme of the SportAccord Convention is "Why Sport Matters".

8. Financial Matters

8.1 **Report of the Finance Commission**

Sverre Seeberg, Chairman of the Finance Commission and FIS Treasurer reported on the accounts per 30th June 2011 and the updated figures at the end of September.

The currency exchange rates have severely affected the current status of the FIS finances due to the collapse of the Euro and US Dollar against the Swiss Franc, with a loss of nearly CHF 10 million booked following the sale of securities in accordance with the FIS investment strategy that is being implemented by Credit Suisse and UBS. Furthermore, the present currency valuation difference is an additional minus CHF 10 million, although this figure has nevertheless improved from CHF 11,5 million at the end of June 2011.

On the positive side both expenditure and income are better than the budget for the time being and efforts are continually being made to make inroads into losses caused by the financial markets and currency valuation losses.

Following a proposal of the bank, there have been minor adjustments made to the FIS Investment Rules to ensure FIS adopts a conservative strategy with its financial assets and manages the currency situation as effectively as possible, notably with Euro and US Dollar assets.

Furthermore, the Council agreed that the Finance Commission studies the end of period accounts once these are closed in the New Year and reports back to the Council with a proposal to present to the FIS Congress 2012 concerning the accounts from the 2010-2011 period and the budget for 2012-2013 within the available means of FIS that also supports the National Ski Association's activities.

8.2 **Requests for financial support from the Technical Committees**

The Council approved proposals from a number of Technical Committees for a database project, rules workshop before the FIS Congress 2012 and the Committee for European Questions Working Group.

8.3 **FIS Solidarity and Aid & Promotion for Developing Nations**

On proposal of the FIS Finance Commission, the Council decided to support a number of projects and requests for assistance that conform with the criteria for FIS Solidarity applications from the National Ski Associations of Algeria/Morocco, Bosnia-Herzegovina, Hungary, India, and the Ukraine.

The Council tabled the proposal of the Organising Committee in Val di Fiemme for support for a Ski Jumping training camp in favour of a common proposal from the Nordic Coordination Group in spring 2012 to have a joint Ski Jumping and Nordic Combined training camp programme and support both discipline's activities as part of the Aid & Promotion activities. One issue to solve concerns

the rules that eligible National Ski Associations are only those with one vote and there are other nations, which could justifiably be considered as requiring support in these disciplines.

Furthermore, the Council decided to review the analysis of support provided to different National Ski Associations from FIS Solidarity and Aid & Promotion at its next Meeting.

8.4 Marc Hodler Foundation

The Council acknowledged the report of Vice-President Janez Kocijancic in his capacity as President of the Marc Hodler Foundation who stated that the institution is fulfilling its mission. The current financial position has also been affected by the currency valuations.

8.5 FIS Travel Service AG

The present financial situation of FIS Travel Service AG is stable despite currency losses, with a high number of teams training in the Southern Hemisphere.

8.6 FIS Marketing AG

The report in relation to FIS Marketing AG is under Item 9.2.

9. Marketing, Public Relations and Special Projects

9.1 “Bring Children to the Snow”

At its Meeting in Schladming, the Council reviewed the latest activities in the Bring Children to the Snow Campaign and the work that is being carried out building up to the inaugural FIS World Snow Day on 22nd January 2012. Key activities that have taken place since June 2011 include:

Activating Snow Desire: International Communication Campaign

- Less than 100 days remain until the inaugural World Snow Day on 22nd January 2012. A campaign update was given at the 9th Youth and Children Seminar in addition to several Committees at the Technical Committee Meetings in Zurich in October 2011 and the World Snow Day was the main topic of the Youth and Children Seminar which saw more than 70 participants from 45 National Ski Associations.
- Meetings and partnership discussions with companies such as Intersport, Halti, Milka and Eurosport have taken place. Intersport is willing to support the programme with focus on selected events initially in Austria, Switzerland and France for the inaugural World Snow Day. Based on results of the initial edition, negotiations will continue with Intersport International for broader support in 2013 and beyond. A TV trailer is in production for use by broadcasters from beginning of January 2012 and both EBU and Eurosport have pledged support.
- Yukim Zhang from China has joined the World Snow Day team on 1st October to help out in this very important phase building up to the first World Snow Day. Kim is living in Switzerland studying for a Master in Sports Administration and Technology (MSA) at the International Academy of Sports Science and Technology (AISTS) in Lausanne.
- The central online platform www.world-snow-day.com launched in June. At report time, 50 Organisers from some 20 countries have signed up to stage activities on 22nd January 2012. Six percent are representing the National Ski Associations. Registration remains open until 15th December 2011.
- Since June several tools and promotional pieces have been developed for use by World Snow Day Organisers. More tools are continuously being developed and will be accessible as soon as they are finalised. The live profile update system for Organisers is online to promote their events.
- FIS SnowKidz Award 2012:
Based on feedback from the first award presented at the FIS Congress in Antalya 2010, the rules were refined. Each National Ski Association may apply with one project and three out of the eight best nominated projects have to represent Aid & Promotion nations. The 2nd FIS SnowKidz Award will be presented at the FIS Congress in Kangwonland (KOR) 2012. The deadline for NSA applications is on 15th February 2012.

Enabling Snow Experience: National Activity Campaign

- A few events taking place on 22nd January 2012 will be selected as World Snow Day case study events. As an example, the last day of the first Winter

Youth Olympic Games 2012 will also see the first celebration of the World Snow Day in Innsbruck.

- During the FIS Technical Committee Meetings in Zurich new knowledge transfer projects in the Youth and Children's Sub-Committee for Cross-Country Skiing were established. Working groups representing different nations will collect information and documentation on how and what kind of children's activities can take place in connection with FIS events or other national events. The selected information will be provided in 'FIS style' to the nations as soon as possible. Following the next committee meeting in Korea a similar project is planned on the topic of education.
- The National Ski Associations play a very important role for the campaign and the knowledge transfer tools are continuing to develop amongst other things.

Upcoming Activities

- Finalise preparations for the first edition of World Snow Day
- Continue World Snow Day website and toolkit development
- Maintain close contact with National Ski Associations, World Snow Day Organisers and other stakeholders
- Publish regular World Snow Day newsletters
- Launch final World Snow Day communication and marketing activities
- Prepare 2nd FIS SnowKidz Award, deadline 15th February 2012
- Manage FIS SnowKidz Meeting Points for season 2012/2013
- Plan second edition of World Snow Day in 2013
- Further develop FIS Bring Children to the Snow campaign

9.2 FIS Marketing AG

The Council acknowledged the report of Christian Pirzer, CEO of FIS Marketing AG and the progress being made with the various projects, including the confirmation of the title sponsorship of the Audi Ski Cross World Cup that is extending its engagement in addition to the Audi FIS Alpine Ski World Cup.

Council Member Peter Schroecksadel expressed concern that in his opinion FIS Marketing AG is selling inventory that it does not own and its' valuation does not cover the expenses of Organisers, such as with the Ski Cross World Cup.

Council Member Patrick Smith requested that the Council review the business and strategic plan of FIS Marketing AG in order that the philosophy of FIS is also considered, such as the organisation of events on a global basis and not just in the locations that are preferred by commercial agencies and sponsors.

10. Anti-Doping

10.1 International Doping Cases

The Council acknowledged the report of the Chairman of the FIS Doping Panel, Patrick Smith.

On 22nd August 2011, the FIS Doping Panel chaired by Patrick Smith with members Vice President Sverre Seeberg and Council Member Roman Kumpost, issued its decision in the case of the Estonian Cross-Country skier Andrus Veerpalu (EST) and has found that he committed an anti-doping rule violation contrary to article 2.1 of the FIS Anti-Doping Rules.

Andrus Veerpalu tested positive for the use of recombinant human growth hormone (recGH), during an out-of-competition doping control on 29th January 2011 in Otepää (EST).

The athlete is ineligible to participate in any capacity in an event or activity authorised or organised by FIS or any National Ski Association for a period of three (3) years, until 23rd February 2014.

The FIS Doping Panel decision may be appealed to the Court of Arbitration for Sport (CAS) within 21 days and an appeal has now been submitted.

10.2 National Doping Cases

In accordance with the World Anti-Doping Code, FIS is not entitled to review and/or amend decisions of doping cases from tests that have been carried out by the National Anti-Doping Agencies, but both FIS and WADA may appeal any decisions to the Court of Arbitration for Sport (CAS) in the event that either organisations believe that an inappropriate decision has been taken (in accordance with the relevant rules and deadlines).

Name	Nat	Disc.	Event tested	Substance/ Method	Sanction
DENISOV, Konstantin	RUS	CC	08.04.2011	Furesomide	2 years (starting on 19.04.2011)
KUZNETSOVA, Yulia	RUS	CC	IC, National Championships, 16.03.2011	Carphedone	2 years (starting on 29.03.2011)

10.3 WADA

The previous meeting of the WADA Executive Board took place on 17th September 2011 in Lausanne (SUI), which primarily addressed the Prohibited List for 2012.

The new List was made official and published on 1st October to take effect on 1st January 2012.

Following requests from stakeholders for additional guidance on what constitutes best practice for testing programmes, WADA has advised that there needs to be more emphasis on the collection of blood samples and that not less than 10% of all samples collected are blood specimens. FIS President Gian Franco Kasper, in his capacity as a member of the WADA Executive Board informed the Council that the number of EPO tests will be considerably increased on a global basis.

WADA has undertaken research into the traditional paper and carbon-copy doping control process to assess the benefits of moving to a more “real time” process supported by established technology which would reduce the

possibility of human error and increase efficiencies, in particular with regard to creating an immediate link with the Anti-Doping Administration & Management System (ADAMS).

Approximately US\$ 4.5 million was approved for scientific research projects in 2012, which brings WADA's total commitment to scientific research grants since 2001 to more than US\$ 58 m.

The next meeting of the Executive Board and Foundation Committee is scheduled for 19th - 20th November 2011 in Montreal (CAN).

11. Appointment of Jury Members

12. FIS World Cup Calendars 2011/2012 to 2015/2016

On proposal of the respective Technical Committees concerned, the Council confirmed the minor modifications to the FIS World Cup Calendars 2011/2012 (please see following pages for the respective calendars).

Furthermore the Council approved the calendars for the following seasons noting the following comments to the FIS Alpine World Cup calendars:

- Consideration for technical races in the Czech Republic and/or Slovakia in the event a date becomes available in the Ladies' calendars.
- Council Member Peter Schroecksnadel stated that Austria should be awarded an additional Men's race in 2013/14 and 2014/15. He added that the races in Soelden are not counted as Austrian races, since the date and location is the decision and choice of FIS.
- Council Member Michel Vion raised the issue of Chamonix which has been a classic Organiser since the creation of the FIS Alpine World Cup and is an iconic location. It features in the calendar in 2011/12 and then not again until at least 2016/17.
- The possibility should be studied of including a regular evening race for the FIS Alpine World Cup giant slalom or slalom on a weekday evening, for example on Tuesday in order to try to gain acceptance by the television networks. The North American races are broadcast in the evening in Europe, so there is already exposure for viewers following races on television at this time. Night competitions in Europe are very popular with spectators on site.

The Council commissioned the Finance Commission to look into the question of value added tax (VAT, GST, MwSt) on prize-money in order that there is clarification in the rules (please see also Item 13.2 on page 62, FIS Alpine World Cup Rules).

13. Proposals and requests from the National Ski Associations

13.1 **Change of licence**

At its Meeting in Ljubljana, the Council approved the new rules for change of FIS licence registration from one National Ski Association to another. The Council agreed that applications should only be submitted before the FIS Licence year begins, therefore by the spring Meeting of the Council.

During the transition period until the next FIS Congress, the Council may approve transfers of FIS licence registration at its autumn Meeting, provided the new rules are fulfilled. The following applications for change of licence since the Council Meeting in June 2011 in Ljubljana have been received and were approved by the Council:

Cross-Country

- **Brandy Stewart**, born 1977 – change from USA to Canada

Freestyle Skiing

- **Grete Eliassen**, born 1986 – change from Norway to USA (also registered for Alpine Skiing)
- **Timofei Slivets**, born 1984 – change from Belarus to Russia

Snowboard

- **Kent Callister**, born 1995 – change from USA to Australia
- **Nirvana Ortanez**, born 1991 – change from USA to the Philippines

13.2 **Proposals and requests from the Technical Committees**

The majority of the Technical Committees and their Sub-Committees met in Zurich (SUI) from 3rd to 7th October 2011 and the following proposals were approved by the Council at its Meeting in Schladming:

The Cross-Country Committee

The Nordic Combined Committee

Final Rules for the "Penalty Race"

After a successful test during the Summer Grand Prix 2011 in Oberwiesenthal (GER), the Nordic Combined Committee proposes the following rules and additionally requests to organise 3 "Penalty Races" in the season 2011/12 (instead of only one):

Realisation of the Ski Jumping competition:

- Competition Management is responsible to fix the 0 line before the PCR.
- Corridors to allow max 4 penalty laps
- Corridors NH: 3, 4, 5, 6 m; LH: 4, 5, 6, 7 m
- No judges' style notes
- Deduction for "no Telemark" = 2 m NH, 3 m LH
- Deduction for "Fall" = 7 m NH, 9 m LH
- Marking of the landing hill, banners on both sides in different colours per corridor.
- No use of the wind & gate compensation system

Realisation of the Cross-Country race:

- Winner of jumping is 10 sec. ahead at the mass start
- Max 50 meters of no skating zone
- Penalty loop in the stadium (150 m)
- No restriction for the athlete when he has to run the "Penalty laps"
- Additional arm band or leg bib showing the number of laps
- Proposal course length: 10 km (5 x 2,0 km)

Qualification criteria

The Council supports the Nordic Combined Committee's proposal to increase the number of athletes from Vancouver 2010 with 55 to 65 for 2014 in Sochi, adapted as follows:

- Nomination according to the World Cup and COC ranking (like for Vancouver 2010)
- Including a national quota (like for Vancouver 2010).
- Teams who take part in the team competition can have an additional place as a reserve.
- Basic quota per nation with World Cup or COC points.

FIS President Gian Franco Kasper reported that the IOC has already stated that the only disciplines where there will be additional athletes in Sochi are for the new events that have been added to the programme. Any other increases would only be possible by taking athletes from other FIS disciplines, which the Council agreed is not possible.

The Alpine Committee

Executive Board

Alpine Injury Surveillance System

The Council confirmed the equipment rules that were approved in conjunction with the ski industry in the interest of athlete's safety in August 2011. These were based on the extensive research process led by the University of Salzburg. Following some further proposals for minor modifications from the ski industry in regard to the width of the front of the ski, the standing height for Downhill and Super-G and the minimum length of skis for Ladies' Downhill, the Council mandated the Alpine Executive Board and its Technical Working Group to review these details together with the University and the research undertaken in order to evaluate the effect on safety and take a final decision.

Injury Status

The Council decided that the Canadian Ski Association would be fined for the late injury status application of their competitors John Kucera and Kelly Vanderbeek, notably since this is the second time such an omission has occurred at an amount of CHF 15'000 per athlete. On request of Council Member Patrick Smith, the Council agreed to table its final decision until its next Meeting in Korea 2012.

Athlete communication in World Cup and major events

At FIS Alpine World Cup races an athletes' representative may have direct contact with the Jury in regard to proposals and requests:

- The appointed athlete represents the opinion of the majority of the athletes participating in the event.
- Before the first Team Captains Meeting the Athletes' Commission names an athletes' representative who is ranked among the top 15 on the board. The name and the nationality must change for every site or event, if the representative is not ranked among the top 15 in the event concerned.
- The athletes' representative is in direct contact with the Jury in regard to proposals and requests. This communication must be carried out between the beginning of the Jury inspection until the end of the racer's inspection on training and race days, or after training runs until the end of the team captains meeting.

Super Combined

The Executive Board supports maintaining Super Combined events in the World Cup Calendar. The Coordination Group for Youth & Children's Questions unanimously supports the proposal too.

Improper Behaviour

The Council agreed to develop a "Code" to deal with cases of improper behaviour that fall outside the competence of the competition jury to augment the existing rules, such as blasphemy on social networking sites or bringing the sport into disrepute.

Sub-Committee for Classification of Alpine Competitors

Evaluation Period

- 3.1 Northern Hemisphere
The evaluation period starts from [the second weekend of 15th November](#) and ends 30th April.
Exception: World Cup and European Cup.
In the time between the World Cup Opening and the [start of the evaluation period 15th November](#), only races at Entry League (ENL) level may be valid for FIS points.

Maximum FIS points

The maximum FIS points level on the FIS Points List must be 999.99 points

Sub-Committee for Alpine Rules and Control of Competitions

ICR

Jury Notification

- 205 Competitors Obligations and Rights
- 205.1 The competitors are obliged to make themselves familiar with the appropriate FIS rules and must comply with the additional instructions of the Jury. [Competitors must also follow the FIS rules and regulations, and instructions of the Jury.](#)
- 205.3 [Competitors must follow the FIS rules regulations and instructions of the Jury. As stated in the Athletes Declaration, competitors have the right to inform the Jury of safety concerns they may have regarding the training and competition courses. More details are given in the corresponding discipline rules.](#)

Gate Panels (valid as from November 2012)

- 690 Gate [flags-panels](#) for Giant Slalom and Super-G
- Gate [flags-panels](#) which conform to the FIS Specifications must be used for all Giant Slalom and Super G competitions published in the FIS Calendar. A list of homologated [flags-panels](#) is published on the FIS Website. ICR arts. 901.2.2 and 1001.3.2 remain valid.
- 690.1 Release in case of [entanglementcollision](#)
- Gate [flags-panels](#) should release from the pole when a competitor gets caught [by it in the flags. The gate panel must meet the test requirements for this as defined in the specifications for Gate Panel Homologation. During lab-tests, a drop pendulum simulates the entanglement at a speed of 75 km/h and a mass of 70 kg. The flag must release ten times out of 10 attempts.](#)

690.2 No removal during normal collision with the pole

During normal collisions, the gate flag panel should not release from the pole. The gate panel must meet the test requirements for this defined in the specifications for Gate Panel Homologation. During lab tests, a drop pendulum will touch the pole at a height of 70 cm above ground and a speed of 75 km/h, with a mass of 70 kg. During 3 sets of tests, the pole is expected to withstand 30 repetitions without the flag being released by the impact.

690.3 Wind permeability

The flag panel must be made of wind-permeable material.

690.4 Advertising on flagsPanels

Advertising on flags panels should not reduce wind permeability of the release mechanism of the flagspanel.

Downhill Gate Panels (valid as from November 2012)

701.3.2 ~~For flags, r~~Rectangular cloth panels are to be used, approximately 0.75 m wide by ~~4.00.50~~ m high. They are to be fastened on the poles, so that they can be recognised as easily as possible by the competitors. In place of red cloth a luminous orange colour may be used. If the safety netting is the same colour as the gate flags panels (usually red or blue), and where the gates cannot be seen properly against the backdrop of the safety netting, an alternative colour for the gate flags panels (usually blue or red) may be used on those gates.

Vertical Drop for Children's competitions (valid as from the season 2012/13)

The Council decided that in addition to the adapted maximum vertical drop for Children's courses, a minimum level would be introduced:

801.1.3 Children's Courses

- ~~K1: maximum 120 m~~
- ~~K2U14 (K1) and U16 (K2): minimum 100 m,~~ maximum 160 m

801.2.4 Number of Direction Changes: (number of direction changes by rounding up or down of the decimals) for all FIS events:

- 30% to 35% of the vertical drop, +/- 3 direction changes
Exception U14 (K1) and U16 (K2):
32% to 38% +/- 3 direction changes

901.1.4 Children's Courses

- U14 (K1) and U16 (K2): minimum 200 m, maximum ~~23~~50 m
Giant Slalom for U16 (K2) must consist of two runs, and for U14 (K1) this possibility should be granted.

901.2.4 The Giant Slalom has to be set as follows (number of direction changes by rounding up or down of the decimals):

- 11 - 15% of the vertical drop in meters
- Children: 13% - ~~15~~17% of the vertical drop
- Entry League (ENL): 13 - 15% of the vertical drop

1001.1.3 Children's Courses

- ~~K1:~~ Minimum 250 m, maximum ~~350~~450 m
- ~~K2: minimum 250 m, maximum 400 m~~

1001.3.4 The Super-G must be set as follows: (number of direction changes by rounding up or down of the decimals)

For FIS level events 7% of the vertical drop equals the minimum number of direction changes. For OWG, WSC, WJC and COC level events 6% of the vertical drop equals the minimum number of direction changes.

The distance between the turning poles of two successive gates must be at least 25 m (exception: art. 1003.1.1).

Children's competitions: minimum 8%, maximum ~~10~~12% direction changes of the vertical drop.

Entry League (ENL): minimum 7% of the vertical drop

World Cup Rules

3.9 Registration and entries

Teams must use the FIS online registration system for entries and FIS season accreditation requests. The Organisers are only allowed to accept entries submitted through the FIS online entry system.

5.2 Expenses

The following expenses have to be paid by the Organisers of FIS World Cup events to the National Ski Associations, including VAT paid if applicable.

6. Prize money

The Organiser must make available at least CHF 100'000.-- per race for prize money (excluding VAT). For individual competitions (DH, SG, GS, SL and SC) this sum is divided to the 10 best competitors, in case of classical combined evaluations to the 3 best. The amount of prize money and its method of distribution must be communicated to FIS before October 15th.

If more than one competitor is on the same rank, the amount of the next rank(s) is added and divided by the number of competitors concerned.

The payment must be paid electronically by bank transfer latest seven (7) working days after the last competition taking into consideration the local tax laws. An itemised confirmation of payment must be provided

to the athlete electronically. Bank transfer fees and value added tax (VAT) are covered by the Organiser.

The Organising Committee must assist the competitors with matters relating to taxation problems with prize money in the country in which the competition is held. [The athlete is responsible for any applicable withholding/income taxes.](#)

The Council agreed that the above rules regarding taxes on prize-money would be applicable for 2011/12 during which the Finance Commission would look into this question (please see Item 12.1 on page 54, Prize-Money) .

[9.1.2.1 Competitors with injury status](#)

- [who were injured for a minimum of 8 months and](#)
 - [who had more than 500 WCSL points at the moment of injury and](#)
 - [no longer have 500 WCSL points at the moment of their first start at a WCSL event after injury and](#)
 - [who are not enrolled within the top 30 on the board and](#)
 - [whose injury status has been accepted](#)
- [will be enrolled after the 30th competitor with their event points \(WCSL/FIS points\). This rule is limited to maximum 3 starts per WCSL event, irrespective of the effective start position in the respective competition.](#)

NAC Quotas

NAC.2.3 Higher Quotas

Canada and USA may enter up to ~~5030~~ competitors (~~5030~~ men and ~~5030~~ ladies) in each [technical](#) race organized in the other nation. All competitors must have a valid FIS code.

NAC.2.3.1 Organizing Nation

The organizing nation may enter a basic quota of 50 competitors, in addition they are entitled to any of the ~~30~~ [50](#) places the other nation (Canada in USA or USA in Canada) does not fill. On prior agreement between the nations, this option may be extended to allow the other nation to use some of the organizing nation's 50 places. In any case the maximum quota of ~~80~~[100](#) for USA and Canada, plus 1 for the winning nation from the previous season (COC 2.2) if the winner is from CAN or USA, may not be exceeded. All competitors must appear on the valid FIS List.

NAC.2.3.1.2 NAC Final quota

Canada and USA may enter up to ~~40~~ [50](#) competitors each for each race in the finals. Unused slots may be used by the other nation, the maximum will not exceed ~~80~~ [North-100](#) + 1 North American racers.

The Freestyle Skiing Committee

Number of Officials in Aerials

At its Meeting in Ljubljana, the Council requested that the Freestyle Skiing Committee reviews the proposal to reduce the number of judges for aerials events to 5 (from 7) for competitions at all levels. After further consideration, the Freestyle Skiing Committee proposes that 6 judges be used in aerials, however the Council confirmed its decision that 5 judges are used, as is the case in Ski Jumping.

Judges at the Olympic Winter Games

The Council rejected the proposal of the Freestyle Skiing Committee to have separate judging panels (Moguls, Aerials, Halfpipe and Slopestyle) for the Olympic Winter Games.

Points scale for Moguls

Following confirmation by the Council of the Freestyle Skiing Committee's proposal in spring 2011 that the 100 points scale be introduced for Moguls in order to make the scoring system easier for viewers to understand and come into line with other events, the Council reminded the Committee that the necessary steps must be undertaken to implement the decision forthwith.

World Cup Calendar Ski Halfpipe and Ski Slopestyle 2011/2012

For 2011/2012, due to the short notice inclusion of Ski Halfpipe and Ski Slopestyle on the programme of the Olympic Winter Games in 2014 and the development of the calendars, the Freestyle Skiing Committee has allowed several presently scheduled Continental Cup competitions in these events to be upgraded to FIS Freestyle Skiing World Cups under the conditions that they will meet the terms and conditions for calendar fees, prize-money and television production standards.

Changes to the ICR

3043.8 Qualified for the Final

The Finals generally consist of the following number of competitors:

If there is a tie among Finalists after the Qualifications, see 3045.4.3.

In Moguls, Aerials, ~~and~~ Ski Halfpipe and Slopestyle, the running order for the first or only Final phase shall be reverse of the order of placement in the Qualifications. In Moguls and Aerials, the start order for any second phase can be the reverse of the competitors' rankings following the first phase. In Halfpipe and Slopestyle, the start order of a second phase will be the same of the first phase.

3046.2 Moguls, Aerials, Ski Halfpipe and Ski Slopestyle Age Limits

In order to compete in international Moguls, Aerials, ~~and~~ Ski Halfpipe and Ski Slopestyle competitions, a competitor must have reached the 14th birthday before the end of the calendar year. To

compete in Major competitions, a competitor must have reached the 15th birthday before the end of the calendar year.

Licensed in season 11/12 for MO/DM/AE/HP/SS: 1997 and earlier

3060.2 Competition Procedures

3060.2.6 Moguls

In the Moguls competition, all competitors will make at least one run ~~down the course~~. The qualified ladies and men, as specified in rule 3043.8 shall move to the Finals.

There can be more than one round in the qualification (Q) and final (F) phases.

Based upon the results of the qualification round (Q1), a set number of competitors will be directly seeded into the final. An optional, 2nd qualification round (Q2), with no more than 20 competitors, based upon the ranking of the competitors remaining competitors from Q1 will take part in Q2. In Q2, an equal number of competitors from the Q1 will be seeded into the final.

In the final phase, there can be several rounds based upon the level of competition. The top seeded competitors from the qualification phase will take part into the first round (F1) in the final. A limited number of top ranked competitors from F1, will proceed into next round(s), either being F2 and then F3.

3060.2.8 Aerials

In Aerials, several 3 formats, may be used; the Final, the Standard or the Championship. There are two options for the final phases in the Final format.

For all formats, the start list for the first phase shall be determined by a random draw.

In all formats, at least one phase must be completed for the results of the competition to be valid.

The start order for the second phase(s) may be in reverse order of the results of the first phase.

~~If two phases have been completed in a competition, then the score of the first jump shall be added to the score of the second jump for a combined score made of two different jumps.~~

If a phase cannot be completed, then the results from the most recent completed phase shall be valid.

3060.2.8.1 Aerials Final Format

In the Final format, all competitors shall compete in qualification phase consisting of one [or more roundsjump](#). There can be two options for the final phase. In the first option, after the qualification phases, the top 12 ladies and top 12 men shall advance to the Final phases. The finalists will take one additional jump and these results shall be added to those from the first phase. The remainder of the field will be ranked according to the results in the qualification phase. In the Final phase, the competitors shall run in reverse order of the placing in the qualification phase.

In the second option, the top 8 competitors from the qualification will be seeded into the Final, which will consist of a series of elimination heats, semifinal phases and final phases.

In each phase, there is a series of heats with a pairing of two competitors. The start order of the Final phase will be based upon the qualification results and the results of each heat. The winner of each heat will advance into the next phase and eventually the winner will be determined in the Final heat.

In each heat, the competitor with the higher score will advance to the next phase and be paired against the competitor from other heats based upon a ladder. (see 4008.8).

3060.2.8.2 Standard Format

In the Standard format, [a decreasing number of competitors will proceed into the next rounds and phases, all competitors shall have two phases. The phases are run as individual competitions. The results from both phases are added together and ranked. If the second both phases cannot be completed then the results from the first phase will be valid.](#)

3060.2.8.3 Championship Format

In the Championship format, all competitors shall compete in a Qualification phase competition consisting of one or two roundsphases. The qualified competitors as specified in rule 3043.8 will move to the Finals. These finalists shall each have two or more roundsphases in the Finals. In the Finals, the competitors shall run in reverse order of the placing in the Qualification phase competition. The remainder of the field will be ranked according to the results in the Qualification.

3060.2.8.4 Major Competition Format

World Ski Championships and Olympic Winter Games shall use the Championship format.

If either, a Championship format Qualifications and Finals or two different Standard or Final competitions, are scheduled they may just be helddone over two days (e.g.: Qualifications on one day, Finals on another day).

4100 SLOPESTYLE

4101 The Slopestyle

The competition will be held on a course with a variety of hits, jumps, rails, tables, big-air, etc. with two or more lines that the competitors may choose from.

4102 Technical Data

4102.1 General characteristics of the course

The average slope inclination should be approximately 12 degrees. The slope should have a regular pitch, without marked variations of the inclination.
The Slopestyle course must be a minimum of 30 meters wide. The course must be a minimum of 100 and a maximum of 200 meters in vertical drop.

4102.2 Slopestyle course description

The Slopestyle course shall contain a variety of type of features (table top jumps, fun boxes, quarter pipes, waves/jumps, rails and ridges, or other features types). The course should have a minimum of three (3) different features types and a minimum of four (4) judged hits in total. The distance between the features should allow a smooth transition and performance. The course should be designed to require a minimum run time of 20+ seconds. The features and the overall course should be designed in such a manner so as to allow usage by both men and ladies competitors. The ideal Slopestyle course should be technically challenging, with a wide variety and balance of features in diverse combinations.

4102.3 Start and finish area

The start area must be flat and wide enough for competitors to prepare for the competition and for coaches, staff and media teams to work. The finish area must be wide enough as to provide the competitors a secure termination for their performance. The entire course should be visible from the judging finish area.

4102.4 Exceptions

Exceptions indoor or in-city events (indoor style or in-city style):

4102.5 Security considerations

Other features can be built but security consideration must always be a priority.

4510 Final Ranking (Ski Cross)

4510.1 Four Person Format

Competitors 1 to 4 are ranked according to their place of finish in the final heat. Competitors 5 to 8 are ranked according to their place of finish in the phase. All remaining competitors are ranked according to their ranking in each heat, the phase they go out in (i.e. quarter finals) and their qualification times within that phase. (example: competitors ranked 9 to 16 in the quarterfinal would be ranked according to their ranking in the heat and then by their qualification times.)

4510.2 Six Person Format

Competitors 1 to 6 are ranked according to their place of finish in the final heat. Competitors 7 to 12 are ranked according to their place of finish in the phase. All remaining competitors are ranked according to their ranking in each heat, the phase they go out in (i.e. quarter finals) and their qualification times within that phase. (example: competitors ranked 13 to 24 in the quarterfinal would be ranked according to their ranking in the heat and then by their qualification times.)

(Please note that Snowboard art. 2706.3 in regard to the Ranking for 8 heats/6 per heat (48) on page xx also applies to ski cross).

Changes to the World Cup Rules

4. Accommodation and Payment of Expenses for Teams

4.3 Halfpipe

For the Halfpipe events, the Organiser is required to provide the "FIS Rate" for the top 12 ladies and top 24 men only based upon the current FIS World Cup Standings.

7. Prize money 2011/12

A minimum amount of prize money of CHF 15'000.-- per competition, per gender must be paid out.

Breakdown:	Place	Amount CHF	% of Total
	1 st place	6'500.--	43.30%
	2 nd place	3'300.--	22.00%
	3 rd place	2'000.--	13.30%
	4 th place	1'000.--	6.67%
	5 th place	700.--	4.67%
	6 th place	500.--	3.33%
	7 th place	400.--	2.67%
	8 th place	300.--	2.00%
	9 th place	200.--	1.33%
	10 th place	100.--	0.68%
Total		15'000.— =====	100.00%

For an aerial team World Cup, 50% of the prize money will be awarded based upon the results of the qualification phase. The remaining 50% of the prize money will be awarded according to the results of the team competition with following allocation:

1st place 7500.- CHF
2nd place 5000.- CHF
3rd place 2500.- CHF

The payment must be made at the awards ceremony in cash and in convertible currency, taking into consideration the local tax-laws. The OC must assist the competitors with matters relating to taxation of prize money in the country in which the competition is held.

(Please see Item 12.1 on pages 54 to 55 in regard to prize-money for 2012/13 and future seasons).

Rules for Junior World Ski Championships

6. Number of participants and officials

- 6.1 Each National Ski Association may delegate in total no more than 4838 competitors, but no more than 4020 of the same gender. A maximum of 4 ladies and 4 men may start per event. In case of more or less events the quota can be adapted.

Freestyle Skiing-Snowboard Coordination Group

The Council approved the proposal of the Freestyle Skiing-Snowboard Coordination Group that it may submit proposals on joint matters directly to the Council. It will report to the respective Committees on its activity and recommend that gathering or meetings between the various Advisory and/or Working Groups take place based on recommendations of the Coordination Group.

The membership of the Group will remain decided by the Council in Ljubljana (SLO) spring 2011, whilst experts maybe invited for specific tasks.

Furthermore, the Council requested the Freestyle Skiing-Snowboard Coordination Group to harmonise all rules, procedures, officials and judges training and to maximise efficiencies between the disciplines.

2707.2 Start lanes – Two Formats

Each starting position is identified by colour and/or number. Looking down the course the positions are set from left to right.

Colours: ~~blue~~~~red~~ – ~~red~~~~green~~ – ~~yellow~~~~blue~~ – ~~black~~~~yellow~~ (~~green~~~~white~~ – ~~white~~~~black~~)

Numbers: 1 – 2 – 3 – 4 – (5 – 6)

Colours are determined by qualification ranking(time) in each heat:

1st ranked Qualification competitor – Red
2nd ranked Qualification competitor – [BlueGreen](#)
3rd ranked Qualification competitor – [YellowBlue](#)

4th ranked Qualification competitor – BlackYellow
5th ranked Qualification competitor – GreenWhite
6th ranked Qualification competitor – WhiteBlack

2716.5 Bibs / Competitors identification (Snowboard Cross)

2716.5.2 To aid in competitor identification different coloured bibs have to be used. Nation outfits are allowed but these outfits clearly need to distinguish the various riders/teams. If coloured bibs will be utilized the following colours have to be used: red – bluegreen – blue - yellow – black. white -black

2400 Triple Slalom Event, (3-STSL)

2401 Definition

A Three S is a competition where three competitors ride simultaneously side by side down three parallel courses. The setting of the courses, the configuration of the terrain and the preparation of the snow are to be as identical as possible.

2402 Technical Data

2402.1 Technical Data Triple-S

For the Triple - S Slalom courses are used. The vertical drop of the course must be between 80 and 120 meters with a minimum of 18 gates. It is recommended to set around 25 gates in TSL with a horizontal distance (turning pole to turning pole) of between 10-14 meters.

The course should have a length on the ground of a minimum of 250 meters and a maximum of 450 meters – recommended length is approximately 350 meters. In general the courses should be between 17° to 22° in average steepness for TSL and a minimum width of 40 meters.

2402.3 Gates

2402.3.1 see 2502.3.1 for Parallel events

2402.3.2 see 2502.3.3 for Parallel events

2403 Choice and Preparation of the Course

2403.1 Choose a slope wide enough to permit three or courses, preferably slightly concave (permitting a view of the whole course from any point). The terrain variations must be the same across the surface of the slope. The course layouts must have the same profile and the same difficulties.

2403.2 Over the full width of the chosen slope, the snow must be consistently hard, similar to course preparation for slalom, so that it is possible to offer equal race conditions on all three courses.

2403.3 There must be a lift available to the course to ensure that the races are run smoothly and rapidly.

2403.4 The course must be entirely closed off by barriers. It is recommended to fence off reserved places intended for trainers, competitors and servicemen.

2404 The Courses

2404.1 When the three courses are set, the left course (looking from the top) will be set with red poles and red triangular gate flags, the middle course (looking from the top) will be set with blue poles and blue triangular gate flags and the right course (looking from the top) will be set with yellow poles and yellow triangular gate flags. If yellow poles and yellow flags are not available the right course (looking down) maybe set with red poles and red flags.

2404.2 The same course setter establishes the courses and makes sure they are identical and parallel. He must ensure that the course flow is smooth and that there is variety in the curves (very pronounced curves) and that the course causes rhythm changes. In no case should this event resemble a long straight run from top to bottom. It is permitted to set double and triple combinations. The recommended number of gates is approximately 23 - 30.

2404.4 Shortly before the finish line, after the last gate, the separation between the three tracks must be well defined so that they direct each competitor towards the finish line. The course setter must place the last gate in such a manner that the competitors are guided towards the center of each finish line.

2404.5 Distance Between the Three Courses
The equidistance between three corresponding course markers (from turning pole to turning pole) must be for: 8 to 10 m
The first gate (all three courses) should be set the same distance apart as the start gates.

2405 Start

2405.1 Start Ramp
See 2505.1 for Parallel events

2405.2 Start Gates
The gates have to open simultaneously for all three runs and a competitor must not be able to push the gates open.

2405.3 False Starts
Disqualification will take place:
- When a competitor manipulates the starting gates
- When a competitor's board (body counts if a western style start gate is used) passes the starting line (vertical plane) before the final starting signal has been given (audible and/or visible)

2405.4 Malfunction of the start gate
If one, tow or three starting machine gates have clearly been blocked because of technical malfunction, without the competitor touching the gate before the starting signal was given, the start must be repeated.

New wording for article 2505.4

2405.5 Start command

Before the starter gives the command – “Go” or a single audible signal, he must first ensure that the competitors are ready by asking: “red course ready, blue course ready, yellow course ready, attention”.

“Riders ready” only can be used in connection with an audible command (series of short beeps followed by one louder starting beep when doors open).

2406 Finish, see article 2506 for Parallel events

2407 Course Setting, see article 2507 for Parallel events

2408 Timing

2408.1 Qualification

The running time of each competitor will be registered with three independently homologated timing systems (see also art. 2020.2, art. 2020.3).

2408.2 Finals

The running time of each competitor will be registered with three independently homologated timing systems (see also art. 2020.2, art. 2020.3). The use of a photo finish camera for higher level events should be compulsory.

2409 Execution of a Triple Slalom (TSL) event

2409.1 Qualification format for the Final

2409.1.1 Qualifying System

The three courses are set from the beginning. These courses are the same or similar to the finals courses.

This Qualification system consists of two runs:

In the Qualification run, all competitors are sorted according to their FIS points or Cup standings ranking. The competitors are seeded to the different courses according their ranking.

Bib number 1, 6, 7, 12, 13, 18, 19, 24, 25, etc on the red course, Bib number 2, 5, 8, 11, 14, 17, 20, 23, 26, etc on the blue course, Bib number 3, 4, 9, 10, 15, 16, 21, 22, 27, etc on the yellow course. A random draw will be made for the top 5 riders on each course. Each competitor has two timed run on the same course.

The best time one (1) run out of two timed runs determines the qualification ranking

The top 9 ranked women and men on the red, the top 9 ranked women and men on blue course and the top 9 ranked women and men on yellow course (27 women and 27 men) advance to the finals.

Ranking:

The competitors are ranked according to the best run out of two qualification runs.

Place 1 – 3, all 1st places of the different courses. Best time in the qualification will be 1st place, second best time 2nd place, third best time will be on 3rd place.

Place 4 – 6, all 2nd places of the different course, ranking according for 1st places.

Place 7 - till the end, according procedure above.

If there is a tie on the best time of the athletes, the tie will first be broken by the better second qualification time. If they are still tied the tie will be broken using the highest current World Cup Standings (at World Cup events) or current FIS points (at FIS/COC/WSC and OWG level events). If they are still tied all will receive the same rank but the competitor with the higher bib number will be ordered first. The exception is if they are tied for the 9th place (see 2509.1.2.3)

2409.1.2. Tie-Breaking for place 9th

In case of a tie for place 9 on one of the courses there shall be another run for each of the competitors involved on the respective course (same course for both). This run will take place immediately after the qualifications. The start order will be drawn at the start.

2409.2 Finals

2409.2.1 Pairings for Finals

9 runs per gender are formed as follows using the results of the Qualifications:

<u>1 Round</u>	<u>_____</u>
<u>1</u>	<u>Place 1 – Place 18 – Place 27</u>
<u>2</u>	<u>Place 2 – Place 17 – Place 26</u>

2409.2.2 Starting order

For each pairs the competitor which is listed first or respectively on top of the pairing will do his first run on the red course. The second listed athlete will do his run on the blue course. Following the order in the table, from top to bottom, all groups race in succession.

2409.2.3 A Triple S final consists of:

- Round 1, 27 athletes
- Round 2, 18 athletes
- Round 3, 6 athletes
- Round 4, 9 athletes
- Round 5, 9 athletes

2409.2.3.1 Round 1

The winners and the second placed athletes are going to round 2

2409.2.3.2 Round 2

The winners of round 2 are going to round 4. The second placed athletes are going to round 3.

2409.2.3.3 Round 3

The winners of round 3 are going to round 4. The best timed second placed athlete of this round goes to round 4.

2409.2.3.4 Round 4

The winners of round 4 are going to the big final (place 1- 3) the second placed athletes of this round are going to small final (place 4 – 6) the third ranked athletes are going to placing final (place 7-9).

2409.2.3.5 Round 5 Finals

The winner of the big final will be ranked 1st. The second of the big final will be ranked 2nd. The third of the big final will be ranked 3rd. The winner of the small final will be ranked 4th. The second of the small final will be ranked 5th. The third of the small final will be ranked 6th.

The winner of the Placing final will be ranked 7th. The second of the placing final will be ranked 8th. The third of the placing final will be ranked 9th.

2409.2.4 Places 10 to 27 are determined by the ranking of the round where they've got eliminated.

2nd places are better ranked than third places. For the ranking in the respective groups the time of the round where they got eliminated will be taken in consideration. F.ex. all third place athletes of round 2 will be ranked on place 13th to place 18th according the run time of round 2.

2409.2.5 Did not start (DNS) in Final rounds

If a competitor does not start in the final rounds, they he will be automatically ranked in the last position of the respective round. If two or more competitors do not start, the (DNS) competitors will be ranked on the last places according to their qualification times or the time of the last round where they have been started. (and so on with three (3) or more DNS competitors).

2409.3 Inspection of the courses

2409.3.1 The competitors are allowed a minimum of 10 minutes to inspect the three courses (qualification and finals). The method of inspection is determined by the Jury.

2410 Control of the Races, see article 2510 for Parallel events

2411 Disqualifications / Sanctions

2411 .1 Causes for disqualifications are the following:

- false start (art. 2505.3)
- disturbing opponent, voluntarily or not at the final rounds
- incorrect gate passage
- turn not executed on the outside of a gate
- not finishing the run with at least one foot fixed to the board.

2411 .2 If a rider disturbs his opponent during the qualification run, the disturbed rider may get a re-run. The run of rider who disturbs the opponent will count finally

2411.2.1 If a competitor is disturbed at the final rounds by an opponent there will be no re-run. If two competitors are disturbed, there will be a re-run with these two athletes.

2411.2.2 In case two competitors do not finish, the competitor that passes the most gates will be ranked on second place of this round. If all 3 competitors do not finish, the run will be started new. If a competitor misses a gate, it is forbidden to re-enter the course.

2412 Final ranking

The competitors will be ranked according their position, determined by the place and time in the respective round, from place 1 – 27. All other athletes will be ranked according their best qualification time. There will be no tie breaking in the final ranking. Tied competitors will receive the same place and get the same points. The athlete with the higher bib number will be ranked first

Collaboration with the Freestyle Snowboard Industry

Further to the proposal of Canada Snowboard to the Snowboard Committee recommending that FIS increases its attention to Freestyle Snowboard development by seeking and developing new opportunities including partnership with the Freestyle Snowboard Industry, the Council underlined that the FIS members are the National Associations. Collaboration with the Snowboard Industry is welcomed in the interests of the development of the sport, but not as a member or in a decision-making role that would undermine the member National Associations.

In the case of the Qualification System for the Olympic Winter Games and the request from the professional Snowboard Event Organisers (TTR) to arrange a combined qualification system, the Council confirmed that the process will only include FIS calendar events during the qualification period from July 2013 to January 2014. Nevertheless National Associations are free to register events on the FIS calendar that are carried out according to FIS rules, including TTR sanctioned events. They would therefore count for FIS points and be part of the Olympic Qualification System as a result.

The Committee for Competition Equipment

Alpine equipment

6. Crash helmets

The use of crash helmets is compulsory for all events. Only helmets are permitted whose shell and padding cover the head and ears. The National Ski Associations are advised to provide their teams only with crash helmets which satisfy the minimum requirements for the respective event and which have been certified by recognised institutes.

Helmets with spoilers or edges that protrude are not permitted. Certain helmets must show a smooth top surface for safety reasons. Helmets used in FIS competitions shall be specifically designed and manufactured for the respective discipline and shall bear a CE mark

and conform to recognized and appropriate standards such as CEE 1077 or US 2040, ASTM F2040, SNELL S98 or RS 98, etc.

Soft ear protections are only allowed for SL events.

For [World Cup](#) speed events (DH / Super G), the helmets must fulfil the following specific additional requirement: the maximum deceleration measured during the impact established based on the test described in the norm EN 1077 Class A must be equal or lower to 230g (NB: according to standard EN 1077 Class A: equal or lower to 250g). The helmet must bear a specific label / marking of minimum 1sqcm applied by the manufacturer on the outside shell and stating "DH/SG" confirming that such requirement is fulfilled.

The Committee for Advertising Matters

Effective Manufacturer and Manufacturer Identification

The following amendments to the current Commercial Markings on Competition Equipment are designed to clarify the existing rule in order to avoid any misunderstandings. The Council agreed that its legal members will review the details and submit any further modifications at its next Meeting in spring 2012.

The intention of the current rule is correct which protects the effective manufacturer of equipment. Those who are not the effective manufacturer and would like to use equipment for brand exposure should not be able to use the exposure for the manufacturer, but need to use the commercial opportunities as provided for in the rules.

In order to clarify the rules, two new definitions are introduced: Effective Manufacturer and Manufacturer Identification. Due to these new definitions small amendments need to be made to the General Principles and the actual Specifications:

A. Definition

1. Competition Equipment

1.1 Effective Manufacturer (*new*)

"Effective Manufacturer" means the enterprise which itself manufactures the Competition Equipment and/or effectively controls and manages the manufacturing of the Competition Equipment under its own responsibility through customary subcontracting processes, and whose Competition Equipment is effectively offered on the market to end users. If requested by FIS, the manufacturer shall provide documentary evidence of such commercial activities at retail level as a condition for the commercial markings to be accepted as a Manufacturer's Identification as further defined in these Specifications. Given the specificity of jumping skis, the FIS Council may exceptionally accept an enterprise as an Effective Manufacturer without evidence of commercial activities at retail level relating to jumping skis .

1.2 Manufacturer's Identification (*new*)

"Manufacturer's Identification" means the trade name, brand, logo, or other designation of the Effective Manufacturer under which the particular Competition Equipment is commercially offered to the market.

Commercial markings which consist of trade names, brands, logos or other designation recognised by the public primarily as designations for products or services other than Competition Equipment will not be accepted as Manufacturer's Identification for Competition Equipment at FIS competitions. This provision does not apply retroactively and commercial markings, which have already been previously accepted, will continue to be allowed.

1.3 Competition Implements (*existing*)

(...)

1.4 Additional equipment (accessories) (*existing*)

(...)

1.5 Auxiliary equipment (*existing*)

(...)

Commercial Markings on Competition Equipment

1. General Principles (*amended*)

Athletes may display on their ~~clothing or equipment~~ Competition Equipment a commercial marking (wording or logo) specifically permitted by the rule articles 2.1 to 2.6 per product.

All other forms of commercial markings or advertising are not permitted if they are not explicitly mentioned.

FIS recognises as an Effective Manufacturer ~~a manufacturer of ski equipment~~ only those enterprises which meet the Definition in Chapter A, paragraph 1.1 of these specifications. ~~effectively produce the ski equipment concerned.~~

Specifications concerning the size, the form and the number of commercial markings must be decided by the FIS Council.

No ~~brand or model names~~ commercial markings which appear on ~~hardware products (ski's, poles, bindings, boots, helmet, etc.)~~ can be shown any Competition Equipment may be displayed on bibs or on clothing unless ~~the name represents that of an actual producer of the clothing in question~~ such commercial marking is a Manufacturer's Identification of that particular Competition Equipment.

2. Actual specifications (*amended*)

2.1 Skis, boots, bindings, ski poles, arm and leg protection, etc-

2.1.1 Skis, ski boots, bindings, ski poles, separate arm and leg protection and other hardware ~~in their commercially available designs~~ are permitted to be used at FIS competitions with their commercially available designs and may only ~~carry the recognised commercial markings of the actual producers~~ bear the Manufacturer's Identification as defined in section Chapter A, paragraph 1.2 of these specifications.

Headgear advertising

- 207 Advertising and Commercial Markings
Technical Specifications about the size, the form and the number of commercial markings are decided by the FIS Council each spring for the following competition season and published by FIS.
- 207.1 The rules covering advertising on equipment must be followed
- 207.2 ~~Rules 223, 224, 225 and 226 will apply for aA~~Any competitor who breaches these advertising rules is subject to sanction, as provided for in art. 223.1.1 An offence for which a sanction may apply and a penalty be imposed is defined as conduct that is in violation or non-observance of competition rules. shall be reported to the FIS forthwith.

National Ski Association and/or competitors themselves will have the opportunity to present the advertising on headgear for approval with its advertising before the season, as well as the day before competitions to the responsible FIS experts, in a similar way to suit plumbing or equipment checks. In the event that the advertising does not conform to the rules, the sanctions will lead to disqualification.

The above precision to the rules enables such measures to be taken by the juries.

Additionally on request of reconsideration by SRS, the Council confirmed its decision taken in June 2011 that the goggle frames may not have a 1 cm² logo in addition to the branding on the strap due to the over proportional exposure.

Starting Bibs

606.1 Start Numbers (Bibs)

For the design of bibs and the commercial imprints see specifications in the FIS Advertising Rules. All bibs used during a single competition must have the same Sshape and size, lettering and the attachment method must not be altered. The figure must be at least 8 cm high and easily legible.

Start numbers can carry a commercial name or commercial mark if every start number has the same marking. The individual letters or numbers must not exceed a height of 10 cm.

Names which appear on hardware products (skis, bindings, poles, boots, and helmets) cannot be shown.

Furthermore, the Council confirmed that the size of the numbers on the bib at 8 cm height is too small and this must be increased back to 12 cm from 2012/13.

The Medical Committee

Medical Guide

221.6 Medical Services Required from Event Organisers

The health and safety of all those involved in a FIS competition is a primary concern of all event Organisers. This includes the competitors as well as volunteers, course workers and spectators.

The specific composition of the medical support system is dependent on several variables:

- The size, and level, type of the event being held (World Championships, World Cup, Continental Cup, FIS-level, etc.) together with the local medical standards of care and geographic locations and circumstances.
- The estimated number of competitors, support staff and spectators.
- The scope of responsibility for the Event Medical Organisation (competitors, support staff, spectators) should also be determined. The Organiser / The Chief of Medical and Rescue Services must confirm with the race director or technical delegate that the required rescue facilities are in place before starting the official training or competition. In the event of an incident, or issue that prevents the primary medical plan from being utilized, the back-up plan must be in place before recommencing the official training or competition. The specific requirements concerning facilities, resources, personnel and team physicians are contained in the respective discipline rules and the FIS Medical Guide, containing Medical Rules and Guidelines.

The Committee for Public Relations and Mass Media

At the Congress 2008 in Cape Town, a new text of Rule 208 was agreed, and the appointed Expert Group was asked to monitor the relevant markets and propose appropriate modifications to this Rule if warranted by technological developments.

The text of Rule 208 has been significantly reviewed and revised, and attached is a marked up document showing the changes to the Cape Town 2008 text. The old text has been restructured and the following points are to be noted.

The decision was taken to expand the text to cover the principle matters affecting the exploitation of Electronic Media Rights because there is no single document within the FIS which gives guidance to National Ski Associations on this important subject. Consequently, new definitions are inserted.

The term news access has been replaced by short extracts, and the duration and method of exploitation are described in relation to the platform concerned (television, Internet, mobile devices).

The important role, as well as the interests of the rights holders, is more clearly defined and the principle that no rights can be used without the agreement of the owner is a constant thread throughout the document.

Clarification has been introduced concerning the payment of technical costs by the end user, and a more precise wording regarding the application of national practices has been developed.

The Council approved the revised wording of Rule 208 and will submit it to the FIS Congress 2012 in Korea and request that the mandate of the Expert Group is extended for a further two years until the FIS Congress in Barcelona in 2014, so that the developments in the constantly evolving world of media are monitored constantly to protect the interests of the FIS.

The current members of the Expert Group are:

Richard Bunn FIS, Chairman
Tom Kelly, USA (Chairman of the FIS PR & Mass Media Committee)
Stefan Krauss, GER
Dr Klaus Leistner, AUT
Tatu Lehmuskallio, FIN
Roberto Nosotti, Infront
Marcel Looze, FIS
Riikka Rakic, FIS

~~208.3~~ **Television**

~~208.3.1~~ **Best c) A standard of production in conformity with the FIS TV Production Guidelines and ~~most extensive publicity through high quality TV~~**

~~In terms of agreements with a TV organisation or agency, attention must be paid to the quality of TV transmissions for all ski and snowboard events— especially for FIS World Cup competitions— published in the FIS Calendar, in particular concerning:~~

~~Top quality and optimal production of a TV signal in which sport is the centrepiece;~~

~~Adequate consideration and presentation of advertising and event sponsors;~~

~~A standard of production appropriate to current market conditions for the discipline and to the level of the FIS competition series, especially the production of the entire event for live transmission, including coverage of all competitors and a world feed;. This means live coverage of the entire event including the winner presentation for live transmission (unless exceptional circumstances determine that a live production is not provided) This coverage shall be produced in a neutral way, shall not concentrate on any athlete or nation and shall show all competitors~~

~~Transmission on those TV channels offering the greatest potential audience exposure based on size and/or demographics.~~

~~Where it is appropriate to the nature of the TV market in the region of the host nation, there should be live TV transmission in the country where the event takes place and in the most interested other countries.~~

~~d) The live international signal of the host broadcaster must include appropriate graphics in English, particularly the official FIS logo, timing and data information and results, and international sound.~~

~~e) Where it is appropriate to the individual TV market, there should be live TV transmission in the country where the event takes place and in other countries with a high interest.~~

208.3.2 Production and Technical costs

~~Except when otherwise agreed between the National Ski Association and the agency/company managing the rights, tThe cost of producing the television signal for the exploitation of the different rights will be borne either by the broadcaster having acquired the rights in the country where the competition takes place or a production company mandated to produce the signal by the company owning the rights. In certain cases, the organiser or the National Ski Association may assume these costs.~~

~~For each of the different rights granted under this rule the technical expenses that are to be paid for by those organisations that have acquired the rights and which are seeking to access the television signal (original picture and sound without commentary), have to be agreed between the producing company or the agency/company~~

managing the rights, as applicable. This also applies to any other production costs that may be requested

208.3.2- ~~Production costs~~

~~The expenses relating to accessing the basic television signal (original picture and sound without commentary) and other production costs have to be agreed between the producing company or the agency/company managing the rights, as applicable, and the networks having bought the rights.~~

208.3.3- ~~Short reports~~extracts

~~Short reports and information (news access) are~~extracts granting news access for non-rights holders are to be provided to television companies according to the following rules,~~recognising. It is noted that in a number of countries national legislation and broadcaster relations governs the showing of short extracts in news programmes.~~
