Report on the Combined/Consolidated Financial Statements
We have audited the accompanying combined/consolidated financial statements of United States Ski and Snowboard Association and affiliated entities (the Companies), which comprise the combined/consolidated statements of financial position as of April 30, 2017 and 2016, and the related combined/consolidated statements of activities and cash flows for the years then ended, and the related notes to the combined/consolidated financial statements.

Management's Responsibility for the Combined/Consolidated Financial Statements
Management is responsible for the preparation and fair presentation of these combined/consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined/consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these combined/consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined/consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined/consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined/consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined/consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined/consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined/consolidated financial statements referred to above present fairly, in all material respects, the combined/consolidated financial position of the Companies as of April 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the combined/consolidated financial statements as a whole. The supplementary information on pages 27 through 29 is presented for the purposes of additional analysis and is not a required part of the combined/consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined/consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined/consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined/consolidated financial statements or to the combined/consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the combined/consolidated financial statements as a whole.

Note 1 - Principal Activity and Significant Accounting Policies

Organization

The United States Ski and Snowboard Association and affiliated entities (the "Companies") combined/consolidated financial statements consist of the financial statements of the United States Ski and Snowboard Association (USSA), a nonprofit corporation, and its wholly-owned subsidiaries, the United States Ski Team, Inc. (USST), and USSA Enterprises (Enterprises); and four not-for-profit organizations supporting the activities of these entities, the United States Skiing Foundation (USSF), the United States Ski Team Foundation (the Foundation), the USSA Investment Fund (USSAIF), and the Center of Excellence Properties Fund (COEPF).

USSA is the national governing body overseeing the sports of Olympic skiing and snowboarding in the United States, and is engaged in nonprofit membership, competition, training, development, and educational activities related to skiers and snowboarders who are, or aspire to become, members of the United States Ski and Snowboard Teams. USST manages and finances the United States Ski and Snowboard Teams. Enterprises manages certain sport education and merchandising activities. USSF and the Foundation operate exclusively for the benefit and support of skiing and snowboarding.

The USSA Investment Fund was formed to manage the investment of endowment gifts made for the benefit of supporting the development, training and competition of elite national team and development athletes in skiing and snowboarding. Further, it distributes a portion of the earnings of the investments to charitable organizations that support the development, training and competition of such athletes.

The Center of Excellence Properties Fund also was formed to support the development, training and competition of elite national team and development athletes in skiing and snowboarding. It is the sole member of Center of Excellence Properties, LLC (CEO, LLC). CEO, LLC constructed and owns a training center and office building designed to support the training and development of such athletes. USSA has entered into a long-term lease to utilize the facility for its purposes.

Principles of Consolidation

The combined/consolidated financial statements of the Companies include the accounts of USSA, USST, Enterprises, USSF, USSAIF, COEPF, and the Foundation. USST and Enterprises are wholly owned by USSA. USSF, USSAIF, COEPF, and the Foundation are combined for accounting presentation purposes only due to certain common members of governing boards. All significant intercompany amounts and transactions have been eliminated during consolidation and combination.

Cash and Cash Equivalents

Cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents. Cash and highly liquid financial instruments restricted to building project, permanent endowment, or other long-term purposes are excluded from this definition.

Accounts Receivables and Credit Policies

Accounts receivable consist primarily of noninterest-bearing amounts due for sponsorship contracts and other amounts due to the Companies. Management determines the allowance for uncollectible accounts receivable based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Accounts receivable are written off when deemed uncollectible. At April 30, 2017 and 2016, the allowance was $108,483 and $178,384, respectively.

Contributions Receivable

Contributions receivable expected to be collected within one year are recorded at net realizable value. Management determines the allowance for contributions receivable based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Contributions receivable are written off when deemed uncollectible. At April 30, 2017 and 2016, the allowance was $0.

Inventories

Inventories are stated at the lower of cost, determined on a first in, first out basis, or market value.

Property and Equipment

Property and equipment additions over $500 are recorded at cost, or if donated, at fair value on the date of donation. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets ranging from 3 to 30 years, or in the case of capitalized leased assets or leasehold improvements, the lesser of the useful life of the asset or the lease term. When assets are sold or otherwise disposed of, the cost and related depreciation or amortization are removed from the accounts, and any remaining gain or loss is included in the combined/consolidated statement of activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed currently.

The Companies review the carrying values of property and equipment for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment during the years ended April 30, 2017 and 2016, respectively.

Investments

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter investments are reported at their fair values in the statement of financial position. Net investment gain/(loss) is reported in the statement of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less investment management and custodial fees.

Deferred Financing Costs

Deferred financing costs relating to the bonds payable are amortized using the effective interest method over the term of the related debt (which approximates the effective interest method). Deferred financing costs are included within long-term debt on the combined/consolidated statements of financial position. Amortization of deferred financing costs is included general and administration in the accompanying combined/consolidated financial statements.

Deferred Revenue

Deferred revenue represents payments received on contracts to be applied to a future year, prepayments for programs to be held in a future year, and contributions for which qualifying expenses have not been incurred. Deferred revenue at April 30, 2017 and 2016 is $4,124,051 and $4,226,287, which includes $2,387,005 and $2,303,713, respectively, of expenses accrued for the Olympic Hospitality programs that have not yet been incurred.

Interest-Rate Swap

The Companies use an interest-rate swap to mitigate interest-rate risk on one-half of the outstanding balance on the bonds payable (Note 7). The related liability is reported at fair value in the combined/consolidated statements of financial position, and unrealized losses or gains are included in the combined/consolidated statements of activities.

Net Assets

Net assets, revenue, and expenses are classified as unrestricted, temporarily restricted, and permanently restricted based upon expendable funds available for operations which are not otherwise limited by donor restrictions or funds subject to specific donor-imposed restrictions contingent upon specific performance of a future event or a specific passage of time before the funds may be used.

Unrestricted, Undesignated – These funds represent support received that are not subject to any restrictions from outside parties.

Unrestricted, Designated as Quasi Endowment – Unrestricted board-designated net assets consist of net assets designated by the Board of Directors for quasi-endowment. The Board of USSF has determined that the funds received from the surplus of the 1984 Los Angeles Olympics will be invested and an annual grant made to support the athletic program.

Temporarily Restricted – These funds have been donated by outside parties with donor imposed restrictions for purposes such as infrastructure costs or athlete scholarships. These funds also include net earnings from permanently restricted endowments.

Permanently Restricted - Endowment – These funds represent donated amounts for resources to maintain and provide a base of future income to be used for athletic operations or education scholarships for athletes. The funds are held in managed investment accounts, mutual funds, and money market accounts.

Financial statement presentation categorizes net assets and changes in net assets as unrestricted, temporarily restricted, or permanently restricted, based on the existence or absence of donor-imposed restrictions.

Revenue and Revenue Recognition

USSA, USST, and Enterprises have entered into certain commercial contracts which typically grant endorsement rights to companies to advertise their products and services, other than ski equipment, used by members of the United States Ski and Snowboard Teams. The contracts also cover television broadcasting rights. Most of these contracts are multiyear contracts.

Contributions received, as well as collectible unconditional promises to contribute, are recognized in the period received or promised. Donated assets are recorded at their market value at the date of donation. Contributions with donor-imposed restrictions are reported as temporarily or permanently restricted assets. Temporarily restricted net assets are reclassified to unrestricted net assets when the donor restrictions are satisfied.

Membership and competition dues and fees, sponsorship contracts, and rights fees are recognized as revenue in the period earned. Grant revenues are generated primarily by grants from the United States Olympic Committee (USOC). Grants are recorded as revenue in the year designated by the grantor.

Contributions of services are recognized only if the services received (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. In some instances, contributions from supporting committees are received net of fundraising expenses incurred and are recognized on a net basis.

Restricted support received the same year that restrictions are fulfilled is reported as unrestricted net assets.

Income Taxes

USSA, USSF, USSAIF, COEPF, and the Foundation are exempt (under Internal Revenue Code Section 501(c)(3) from income taxes on earnings from related activities. Accordingly, income taxes are only provided on revenues from nonexempt activities and are included in administrative expenses. USST and Enterprises are taxable corporations and are responsible for filing separate income tax returns.

USST and Enterprises account for income taxes using the asset and liability method. Income taxes are provided for the tax effects of transactions reporting in the combined/consolidated financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of receivables, inventory, property and equipment, intangible assets, and accrued expenses for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

Management believes that each entity has appropriate support for any tax positions taken affecting its annual filing requirements, and as such, does not have any uncertain tax positions that are material to the combined/consolidated financial statements. Management would recognize future accrued interest and penalties related to unrecognized tax benefits and liabilities in income tax expense if such interest and penalties are incurred.

Estimates

The preparation of combined/consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the combined/consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and those differences could be material.

Financial Instruments and Credit Risk

The Companies manage deposit concentration risk by placing cash, money market accounts, and certificates of deposit with financial institutions believed by the Companies to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, the Companies have not experienced losses in any of these accounts. Credit risk associated with accounts receivable and promises to give is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from Board members, governmental agencies, and foundations supportive of our mission. Investments are made by diversified investment managers whose performance is monitored by the Companies and the Investment Committee of the Board of Directors. Although the fair values of investments are subject to fluctuation on a year-to-year basis, the Companies and the Investment Committee believe that the investment policies and guidelines are prudent for the long-term welfare of the Companies.

Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying combined/consolidated financial statements to maintain consistency between periods presented. The reclassifications had no impact on change in net assets or net assets.

Subsequent Events

The Companies have evaluated subsequent events through July 28, 2017, the date which the combined/ consolidated financial statements were available to be issued.

Note 2 - Fair Value Measurements and Disclosures

Certain assets and liabilities are reported at fair value in the combined/consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Companies can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, the Companies develop inputs using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to the Companies assessment of the quality, risk or liquidity profile of the asset or liability.

A significant portion of the Companies investment assets are classified within Level 1 because they are comprised of open-end mutual funds, money market funds and equities with readily determinable fair values based on daily redemption values.

The Companies use Net Asset Value (NAV) per share, or its equivalent, such as member units or an ownership interest in partners' capital, to estimate the fair values of certain hedge funds, private equity funds, funds of funds, and limited partnerships which do not have readily determinable fair values. Investments valued at NAV are classified within Level 2 if the Companies has the ability to redeem the investment at NAV per share, or its equivalent, at the measurement date or within the near term; otherwise, the investment is classified within Level 3. The interest rate swap agreement is valued using a third party's proprietary discounted cash flow model which considers past, present and future assumptions regarding interest rates and market conditions to estimate the fair value of the agreement. This is classified within Level 2.

The following table presents assets and liabilities measured at fair value on a recurring basis, except those measured at cost as identified below, at April 30, 2017:

		Fair Value Measurements at Report Date Using

All of the investments classified as Level 2 investments above are investments in certain entities that calculate NAV per share. None of these investments have unfunded commitments and all of these investments can be liquidated at least annually and in some cases on a monthly basis. The redemption notice required for these investments ranges from no redemption notice period to 30 days.

Hedge Funds – Funds that can invest long and short, primarily in common stocks. Fund managers may invest in value, growth, or event-driven equity opportunities and typically are not restricted by market capitalization, industry sector, or geography. Leverage may be utilized, which can magnify changes in the values of the underlying securities. Fair values in this category have been estimated using the net asset value per share of the investments (the practical expedient) provided by the fund manager or general partner.

Hedge Fund of Funds – Funds can invest long and short with a focus on emerging markets and absolute returns. Fund managers invest in hedge funds to increase the diversification of the portfolio. Leverage may be utilized by the underlying funds, which can magnify changes in the values of the underlying hedge funds. Fair values in this category have been estimated using the net asset value per share of the investments (the practical expedient) provided by the fund manager or general partner.

Note 6 - Line of Credit

USSA has a $7,000,000 line of credit with a bank at April 30, 2017 and 2016, respectively. The outstanding balance on the line was $2,865,733 and $4,891,050 at April 30, 2017 and 2016, respectively. The line of credit expires June 1, 2020. The line of credit is guaranteed by USSIF, Foundation, Enterprises, USST, USSF, COEPF, LLC, and any other person or entity who, or which, in any manner, is or becomes obligated under any guaranty now or hereafter executed in connection with respect to the line of credit. As of April 30, 2017, interest on borrowings on the line of credit is at the daily one month LIBOR rate plus 1.75% (2.75%) and a fee equal to one-quarter percent per annum on the daily unused amount of the line of credit. As of April 30, 2016, interest on borrowings on the line of credit was at the daily one month LIBOR rate plus 1.75% (2.19%). USSA was in compliance with certain financial and non-financial covenants at April 30, 2017 and 2016.

Note 7 - Long-Term Debt

CEO, LLC, the sole member of which is COEPF, issued $18,885,000 in tax-exempt bonds to refinance the Center of Excellence, a multi-use training facility and office building. Wells Fargo purchased the bonds through the refinance that closed in May 2016. USSA, the Foundation, USSAIF, USST, and Enterprises are guarantors on the long-term debt from Wells Fargo.

COEPF also terminated its prior swap agreement and negotiated a new swap agreement when the bonds were refinanced. The refinance extended the amortization period to 2040 and changed the interest rate on half of the new bonds bearing interest at 2.53% (1.38% swap rate plus a 1.15% spread) and the other half at 67% of current LIBOR plus a 1.15% spread (resulting blended rate of 2.17% and 1.99% based on current LIBOR at April 30, 2017 and 2016, respectively). Early termination fees in 2016 on the prior swap were $4,218,000. The new swap agreement expires in 2022, with an option to terminate the swap in 2020 without fees.

Borrowings consist of the following at April 30:

	2017	2016
One-half of bonds bearing interest at 1.38% swap rate plus a 1.15% spread and the other half at 67% LIBOR rate plus a 1.15% spread; principal payable monthly from 2016 to 2040.	$ 17,878,048	$ 18,434,662
Deferred financing costs of $122,729 in 2017 and $128,045 in 2016	(122,729)	(128,045)

Less current maturities	(572,014)	(556,614)
	$ 17,183,305	$ 17,750,003

Scheduled maturities of the bonds as of April 30, 2017 are as follows:

Years Ending April 30,	Amount
2018	$ 572,014
2019	586,921
2020	601,251
2021	617,691
2022	633,981
Thereafter	14,866,190
	$ 17,878,048

During the years ended April 30, 2017 and 2016, the fair value of the liability under the swap decreased $184,959 and increased $397,151, respectively, which has been reflected in the accompanying combined/consolidated statements of activities. At April 30, 2017 and 2016, the fair value of the swap liability was $16,618 and $201,577, respectively.

Note 8 - Related Party Transactions

Related parties considered herein include United States Skiing Foundation (USSF), USSA Investment Fund (USSAIF), Center of Excellence Properties Fund (COEPF), United States Ski Team Foundation (the Foundation), USSA Enterprises (Enterprises), and United States Ski Team (USST), and the officers or trustees of these entities.

USSA licensed a company to supply and sell logo merchandise of USSA and its affiliates. The licensed company was owned by the brother-in-law of the Executive Vice President of the Foundation. The licensed company was sold during the current fiscal year to an unrelated party. USSA and its affiliates purchased $0 and $97,155 of merchandise during the years ended April 30, 2017 and 2016, respectively. USSA selected this company as a licensee after reviewing competitive bids.

The Companies maintain material cash and investment balances at Wells Fargo Bank (Wells Fargo), a financial institution, and Thomas Weisel Partners (TWP), an investment banking firm. A former executive officer of Wells Fargo, and the co-chairman of the parent company of TWP are members of the board of trustees of the Foundation.

Note 9 - Gross Revenue and Expenses

USSA conducts a variety of revenue and support programs. Activities such as sponsorships or fundraising programs require certain fulfillment costs. Sponsorship may require the purchase of media support for the sponsor or other hospitality functions, while fundraising programs may include the cost of a dinner or reception.

The following summarizes the gross revenue and related expenses to conduct these programs for the years ended April 30, 2017 and 2016:

Note 10 - Endowments and Restricted Net Assets

The Companies' endowments include four permanently restricted endowment funds and a board designated quasi-endowment fund. These funds provide for annual grants from earnings to support athletic and scholarship programs. As required by generally accepted accounting principles and in accordance with the Utah Uniform Prudent Management of Institutional Funds Act (UPFIMA), net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions. Accordingly, contributions to permanently restricted endowments are classified as permanently restricted and net earnings and grants from such earnings are classified as temporarily restricted.

The USSA Investment Fund (a separate 501(c)3 organization) was formed to hold and oversee the investment management of various funds that donors have contributed to support the organization's ongoing operations. Management and the boards have conducted fundraising campaigns over the years to support various activities of the organization. The most significant campaigns include the Legacy Campaign Athletic Endowment (LCAE), the Borgen Swartz Athlete Education Endowment, and an infrastructure campaign to primarily support the build out of an early season on snow speed training center.

During 2000, the management and key board members initiated a campaign to raise funds to provide additional annual support for athletic activities which was named the Legacy Campaign Athletic Endowment. The board adopted an Investment Policy for the LCAE with an overall financial objective of providing financial support for operations at a level consistent with maintaining or increasing the fund's purchasing power over the long term. Under this policy, endowment assets are invested in a manner intended to maintain or increase the dollar value of the portfolio after annual distribution expenses and fees in order to provide the benefit intended by the donors. To satisfy its long-term rate-of-return objectives, the Companies rely on a total-return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Companies target a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints. The policy provides for an annual grant over the long term that will be 3% to 5% of the three prior year-ending portfolio market values (a rolling average calculation). This 3% to 5% rolling average grant is expected to be maintained over time however the board can adjust this grant level from year to year to account for variations in portfolio market values and endowment contributions. The LCAE and other similar athletic funds have been classified as permanently restricted for financial statement purposes.

During 2008 and 2009, the LCAE incurred over $7 million in investment losses as a result of the financial market collapse which erased substantially all of the previous earnings. In 2009, the board determined to continue the annual 5% grant as it would be critical to sustaining athletic programs during the upcoming Olympic year and beyond resulting in the endowment funds fair values to be less than the amount of the original gifts (the permanently restricted portion of the funds). During 2016, the board authorized the use of $4,218,000 of endowment funds to pay early termination fees to retire the prior swap agreement. Deficiencies of $10,447,219 and $11,279,204 as of April 30, 2017 and 2016, respectively, have been reported in unrestricted net assets. The Companies have not suspended distributions from these funds until such time as the deficiencies are recovered via market returns; and there is no legal obligation for the Companies to fund these deficiencies.

The following summarizes the contributions, grants, and investment earnings/loss for the years ended April 30, 2017 and 2016:

LCAE and Other Athletic Funds	2017	2016

The board of USSF has determined that the funds received from the surplus of the 1984 Los Angeles Olympics be invested with the USSAIF investments and an annual grant be made from these funds to support the athletic programs. The USSF board has been granting funds on a 3 year rolling average as is done with the LCAE. These funds have been classified as Unrestricted, Designated as Quasi-Endowment on the financial statements.

The following summarizes the funds' grants, and investment earnings for the years ended April 30, 2017 and 2016:
